STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to provide additional revenues for the province of Bengal in order to remove part of the existing deficit in the provincial revenues. It is proposed to effect this by varying the rates of stamp duties as in the Bill.

Notes on clauses.

Clauses 1 and 2.—These clauses introduce the provisions of the Bill into Bengal and provide for the amendment of the Indian Stamp Act, 1899, by the remaining provisions of the Bill.

Clauses 3 and 5 are consequential on clause 4.

Clause 4 applies generally the duties indicated in Schedule IA to the instruments set forth in this clause, that is to say, to instruments which become chargeable with the rates of duty mentioned in Schedule IA by reason of their inclusion in that Schedule combined with their execution, negotiation or receipt in Bengal.

Clause 6 provides that, where duty under Schedule I has been chargeable in another part of British India on an instrument, which later becomes liable to the payment of the Bengal duty, the duty to be paid in respect of such instrument under this Bill shall be the Bengal duty as set forth in Schedule IA less the amount of duty already paid elsewhere in British India. This principle is applied to instruments on which the full duty chargeable under Schedule I has already been paid, and also to instruments on which such duty should have been but has not been paid. The three months limit to endorsements, provided in clause (*b*) of the proviso to sub-section (*3*) of section 32, is applied to all instruments so chargeable, the said instruments being otherwise treated as instruments executed out of British India and received into British India for the first time at the time when the Bengal duty became chargeable upon them, and being exempted from the severer provisions contained in clause (*a*) of the said proviso.

Clause 7 makes formal alterations in order to apply the provisions of sections 23A, 24 and 29 to the corresponding instruments indicated in Schedule IA.

Clause 8 introduces Schedule IA, which contains the substantive provisions as to the amount of duty chargeable in Bengal on the various kinds of instruments which fall within the scope of the new proviso to section 3.

This Schedule deals with all the classes of instruments, mentioned as chargeable with duty in Schedule I, except the following :—

Acknowledgement (*No. 1*) Bills of Exchange (No. 13), Certificate (No. 19), Cheque (No. 21), Delivery Order in respect of goods (No. 28), Letter of allotment of shares (No. 36), Letter of credit (No. 37), Policy of Insurance (No. 47), Promissory Note (No. 49), Proxy (No. 52), Receipt (No. 53) and Shipping Order (No. 60), in regard to which instruments all India legislation has been suggested to the Government of India.

RESOLUTION ON THE REPORT ON THE WORKING OF THE CO-OPERATIVE SOCIETIES IN BENGAL FOR THE YEAR ENDING 30TH JUNE 1921.

GOVERNMENT OF BENGAL.

DEPARTMENT OF AGRICULTURE AND INDUSTRIES.

Co-operative.

CALCUTTA, THE 30TH JANUARY 1922.

RESOLUTION—No. 461.

READ—

The report on the working of the Co-operative Societies in Bengal for the year ending 30th June 1921.

The principal administrative change of the year under report was the transfer of the control of the Co-operative Department from the Revenue Department of Government to the Ministry of Agriculture and Public Works

on the inauguration of the Reformed Government in January 1921. Mr. Thorp officiated as Registrar until the return from leave of Mr. Donovan, the permanent Registrar, in November 1920. During the year the Secretary of State sanctioned the appointment of an Assistant Registrar for each division. Four of these have already been appointed and the fifth will be appointed as soon as funds are available. Proposals for the re-organization of the department and for placing it on a permanent footing were submitted to Government towards the close of the year and are now under consideration.

2. The total number of societies increased from 5,408 at the beginning of the year to 6,366 at its close. The progress has not been so great as in the previous year when the number of societies increased by 1,152. There was a persistent demand for new societies, but the Registrar, recognizing the need for caution in regard to new commitments, found it necessary to limit the rate of expansion. In the two years ending 30th June 1921, the total increase in the number of societies has been 50 per cent. Neither of these years could be classed as prosperous, and the second was certainly a year of grave trade depression, financial difficulties and serious political and economic disturbances. In these circumstances, the Hon'ble Minister agrees with the Registrar that the recorded progress was the maximum consistent with financial security and the maintenance of adequate supervision. The total working capital of the societies has risen from Rs. 2,82,00,000 to Rs. 3,33,00,000. Of this sum the societies and their members provide over 40 per cent. Thus, while the capital employed is steadily increasing, the proportion contributed from outside sources is decreasing year by year, and the Hon'ble Minister regards this as a very encouraging feature. The number of members in the societies has risen from 217,175 to 242,085 in the year under report. The increase in the number of societies is thus 17·7 per cent. and in the working capital 17·9 per cent., while the increase in the number of members is only 11·4 per cent. The Registrar, however, points out that the membership of a society at the time of its registration and for a year or two afterwards is generally small. The large number of new societies has thus considerably reduced the average number of members. It is satisfactory that the number of fresh cases of liquidation was only 63, or about 1 per cent. of the total number of societies in existence.

3. Agricultural Credit Societies constitute about 90 per cent. of the total number and their working capital amounted to Rs. 1,22,62,000 as compared to Rs. 1,04,08,000 in 1919-20. The share capital paid-up in these societies rose during the year from 1·53 to 3·02 lakhs, and deposits by members increased from 5·76 to 6·27 lakhs.

Central Banks have increased in number from 64 to 71, and their working capital rose from Rs. 1,04,04,895 to Rs. 1,21,22,554. About two lakhs of this, however, is a fictitious increase being the amount due to the Faridpur Central Bank by the Nurpur Central Bank. The actual increase in capital is thus about 15 lakhs. There was a considerable falling off in collections during the year under report. This was due to the unsatisfactory agricultural conditions and the economic depression of the year. As a result provincial and central banks were compelled to exercise the greatest caution in regard to new commitments, and the amount issued in fresh loans fell from 56·45 lakhs to 44·13 lakhs. The loans and deposits received by central banks also showed a slight decrease. This was due not to any weakening of public confidence but to a general shortage of money and the competitive rates offered by other borrowers. The total liquid resources of the central banks at the close of the year were 9·78 lakhs and the Registrar points out that this is a very low cover for deposits of Rs. 42,00,000 maturing in the following twelve months. Of these 42 lakhs, however, 24 lakhs are held by central banks from the Provincial Co-operative Federation. Taking the Federation and the Central Banks together, more than 50 per cent. of the deposits received from the public which mature in the next twelve months are covered by liquid resources. The Hon'ble Minister agrees with the Registrar that the position is quite safe, but he desires to impress on the Central Banks the inadvisability of relying too much on the Federation and letting their own liquid resources run too low.

The Bengal Provincial Co-operative Federation is in a very satisfactory position. Although its rates are sometimes less and never more than the rates offered by Government and public bodies, it received from the public fresh deposits of over five lakhs of rupees during the year under report, compared to less than one lakh of rupees in the previous year. It has followed a careful and cautious policy and this has enabled it to retain the confidence of depositors.

4. The Bengal Co-operative Organization Society, which is doing useful work as a central bureau of information and advice on co-operative matters, devoted particular attention to the solution of problems peculiar to Calcutta. As a result of the activities of its Housing Committee, the organization of a co-operative housing society has now become a matter of practical politics. The Stores Sub-Committee is engaged in an attempt to organize co-operative coal supply in Calcutta. The departmental museum has been instrumental in bringing the work of the industrial societies to the notice of the public and securing orders for them.

5. There are now eleven Agricultural Purchase and Purchase and Sale Societies as compared with seven in the previous year. On the whole, these societies have shown satisfactory progress. Their growth is in no way forced. The Co-operative Department are well aware of the general incapacity of cultivators to manage the business affairs of these societies and they do not too readily encourage their organisation. In spite of this, cultivators have insisted on making an attempt in different districts. This development is satisfactory inasmuch as it proves that these cultivators no longer regard co-operation as an easy means of getting cheap loans, but understand and appreciate the true principles of the co-operative movement. The Khepupara Supply and Sale Society has been a conspicuous success. It now serves nearly 3,000 families and is rapidly expanding its business. It has recently erected, at a cost of Rs. 18,000, a godown capable of storing 40,000 maunds of paddy which will enable the members, who have hitherto been forced to sell their produce at a sacrifice for want of storage room, to wait for a favourable market. The co-operative store at Naogaon is another successful institution. Its business is rapidly developing and it has now two shops in the town of Naogaon; it has also started a printing press which is executing orders for co-operative societies in every part of the province. The milk societies in the Barasat subdivision unfortunately received a serious setback owing to circumstances which might have been avoided by timely action. When the situation was realized prompt measures were taken to retrieve the situation and the crisis is now past. The Naogaon Ganja Cultivators' Co-operative Society also passed through a severe crisis during the year. An attempt to spread the non-co-operation movement in the area completely failed, but internal dissensions for which the agitators were to some extent responsible, considerably hampered the development of its work. By the end of the year, however, these differences were composed, and there is every reason to hope that this society will now continue its former prosperous career.

The number of non-agricultural societies increased from 360 in the previous year to 438 in the year under report. Of these 148 are credit societies with a working capital of Rs. 55,82,000. Taken as a whole, the returns of these societies are most satisfactory. The Calcutta Credit Societies, 33 in number, are a sound financial group and afford great assistance to 23,000 middle class employees in Calcutta offices. An interesting feature of the Chittagong group of societies is the fact that punctuality in repayment is encouraged by allowing a rebate of interest on loans repaid on the due date, whereas in other districts penalties are imposed for unpunctuality. The system in force at Chittagong is in the true spirit of co-operation and it is satisfactory to find that it has proved more efficacious than the system of penalising unpunctuality.

The number of non-agricultural supply and sale societies has risen from 18 to 90 in two years. This large increase was due to economic causes. High prices and profiteering induced people of the middle classes to attempt co-operative distribution. It was found, however, that many of these

societies were working on wrong lines. The true spirit of co-operation was absent ; members were disloyal, credit was too freely given, and reckless attempts were made to under-sell the market. A halt was therefore called in the organisation of new societies and the officers of the department devoted their attention to the improvement of existing societies. Some improvement has already been effected, but many of the societies are so bad that the only course is to close them. The Registrar points out that these failures have their value and that the experience gained will lead to an advance on sounder lines.

The number of Weavers' Societies has increased to 117, but it is only in Bankura that anything like an outstanding success has been achieved. Owing to the prevailing economic conditions, the turn-over of the Bankura Industrial Co-operative Union was considerably smaller than in the preceding year, but in other respects the union made distinct progress. The societies have improved and bad workers and bad societies have been replaced by good workers and good societies. The quality of the work has greatly improved and cloth is now woven at Bankura which the weavers could not have attempted to make two or three years ago. Financially too the union is much stronger. The paid-up share capital exceeds Rs. 10,000 and nearly half of it belongs to the weavers themselves.

6. An important feature of the situation is the increasing interest and sympathy shown by the public towards the co-operative movement in practically every part of the province. In particular, the interest of the zamindars in the movement has shown a marked increase and many of them have rendered valuable assistance, both financially and by propaganda. To these and to numerous other gentlemen, official and non-official, to whom the department is indebted for assistance, the thanks of the Hon'ble Minister are due.

7. This is the last report on the working of the Co-operative Department which will be submitted by Mr. Donovan. He has been Registrar of Co-operative Societies since June 1917 and has relinquished charge of his office since the close of the year under report. The Hon'ble Minister takes this opportunity of expressing his thanks to Mr. Donovan for the untiring zeal and energy with which he discharged his duties, and of congratulating him on the great stride which the movement made during his tenure of office. The Hon'ble Minister notes with pleasure the good work of the staff which the Registrar has brought to the notice of Government.

J. A. L. SWAN,

Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Final Forecast of the Sugarcane Crop of Bengal, 1921-22.

(Note.—On an average of the five years ending 1919-20, the area under sugarcane in Bengal has represented some 8·4 per cent. of the total area under sugarcane in British India.

Character of the season.—As reported in the second forecast lack of soil moisture at the beginning and insufficient rainfall later on during the months of May and June were generally unfavourable to the planting and growth of the crop in the western districts while in the rest of the Presidency the crop was not much affected. Since then, however, favourable conditions generally prevailed from July to September and the crop improved greatly in spite of some damage caused by heavy rainfall and flood in certain districts. Subsequently drought since October has tended somewhat to spoil what would otherwise have been a fairly favourable season.

Acreage.—The total area planted with sugarcane for the Province is estimated at 220,900 acres this year against 218,800 acres last year.

Outturn.—From the Appendix I attached to the report, it will be seen that the district of Darjeeling reports a bumper crop; two districts (namely Rangpur and Noakhali) report a normal crop; twenty districts a crop varying from 75 to 92 per cent. and three districts a crop as 67 per cent. each. The district of the Chittagong Hill Tracts reports a crop as low as 58 per cent.

According to the above estimates, the average outturn of the crop for the Province works out at 82 per cent. of the normal against 88 per cent. last year.

Taking 36 maunds as the normal rate of cane gur per acre the gross outturn for the Province is estimated at 239,500 tons this year against 254,600 tons last year.

Other sources of gur.—The total quantity of gur likely to be obtained from date palm juice is estimated at 119,800 tons this year against 124,100 tons last year.

The total quantity of gur for the Province from all sources is thus estimated at 359,300 tons against 378,700 tons last year.

CALCUTTA TRADE FLUCTUATIONS.

THE following tables are intended to show the trade by all routes, *i.e.*, by rail, river, canal, road, and sea, of the Calcutta block* in certain selected articles during the eight months, April to November, 1921, as compared with the corresponding period of 1920 and 1919. The statistics have been compiled from returns furnished by the Collector of Customs, Calcutta, Railway Audit Offices, Steamer Companies, the Commissioners for the Port of Calcutta, the Collectors of the 24-Parganas and Howrah, and the Assistant Engineer, Calcutta Canals.

There was a decrease of 20 per cent in the imports of coal and coke (74,751,000 maunds as against 93,786,000 maunds a year ago). The value of the imports by rail, river, road, and sea (coastwise) of Indian cotton piecegoods showed a decrease of 10 per cent, the total value amounting to Rs. 7,13 lakhs as against Rs. 7,92 lakhs in 1920. The imports of raw jute amounted to 2,825,000 bales as against 3,772,000 bales,—a decrease of 947,000 bales or 25 per cent. The importations of gunny bags also showed a decrease of 94 million bags (203 million bags against 297 millions in the preceding year). The total imports of oilseeds (linseed and rape and mustard seed) decreased by 283,000 maunds, or 6 per cent, from 5,024,000 maunds to 4,741,000 maunds and those of sugar also declined by 210,000 maunds, or 37 per cent, from 572,000 maunds to 362,000 maunds. The imports of tea increased from 1,487,000 maunds to 1,845,000 maunds, an increase of 358,000 maunds or 24 per cent.

Exports.—The value of the exports of cotton piecegoods, foreign, from Calcutta* by all routes during the eight months, April to November, 1921, fell by 26 per cent from Rs. 18,12 lakhs to Rs. 13,46 lakhs. The exports of gunny bags (including the exports by sea to foreign countries) decreased from 934 million to 712 million bags, but the shipments of gunny bags to other Indian ports increased from 25 to 41 millions in number in the period under review. The quantity of kerosene oil despatched from Calcutta and Budge-Budge by internal routes and by sea (coastwise) also rose from 3,583,000 maunds to 3,845,000 maunds, an increase of 262,000 maunds or 7 per cent.

I have the honour to present the following report on the working of the Calcutta Fire Brigade for the year ending the 31st March 1921.

2. I returned from leave and resumed charge of the Fire Brigade on the 4th December 1920. During my absence, Second Officer Jarrett officiated.

3. **Financial statement.**—The statement of the receipts and expenditure and payments made by the municipalities within the jurisdiction of the Fire Brigade Act, I of 1893, is given in Appendix I.

4. **Fires, etc.**—During the year under review the Fire Brigade received calls for a total number of 614 fires, or supposed fires, being an increase of 64 over the previous year. The above is classified as under—

Fires	460
False alarms	149
Calls for special service	5

It is unsatisfactory to note that no less than 96 of the above false alarms were wilful. In two instances the offenders were arrested by the police. The Fire Alarm system has been of considerable utility, and undoubtedly many serious fires have been averted owing to this direct and rapid means of communication with the Brigade.

The actual number of calls received during the year was 968 as compared with 811 in the previous year. This figure includes instances where more than one call was received for the same fire. Forty-eight fires occurred in the premises licensed under the Licensed Warehouse and Fire Brigade Act, I of 1893, as against 38 in the preceding year. The nature of the trades requiring licenses under this Act are enumerated in Appendix XVII.

5. **Fire loss.**—The total damage caused by fire and water during the year under review is estimated at Rs. 23,57,085, being a decrease of Rs. 4,55,937 in the last year, and an increase of Rs. 11,31,761 over the average of the past ten years. This comparatively heavy fire loss is chiefly due to the abnormal number of fires in the jute areas. It is satisfactory to note that the average damage per fire was Rs. 3,839 as compared with Rs. 5,450 for the past ten years.

6. The following summaries are given in the appendices :—

7. **Appliances.**—Appendix X shows the distribution of the principal appliances in commission by the Fire Brigade, and Appendix XI gives the number of times each appliance has been turned out in response to fire calls. It is estimated that motor appliances travelled 5,596 miles and horse drawn appliances 190 miles during the year in responding to and returning from calls. A new motor fire engine from Messrs. Leyland and Company was received on 20th December 1920. Considerable difficulty has been experienced with delivery hose throughout the year. Owing to the extra cost and low rate of exchange the budget heading in this respect has had to be considerably exceeded. Frequently at jute fires a large quantity of hose is in use for periods often exceeding a week, and experience has shown that such conditions have a remarkably bad effect on the hose and considerably more so than would be normally anticipated.

8. **Fire stations.**—Appendix XII gives the number of times each Fire Station has been turned out in response to fire calls, together with monthly figures. The headquarters of the Fire Brigade is still located in premises rented from the Samavaya Corporation, Limited, in Corporation Place and no further steps have been taken to secure a suitable site for the erection of permanent headquarters. A high rent is paid for the present buildings which are not suitable for the purposes required, and undoubtedly the efficiency of the Brigade can be improved by the provision of suitable headquarters with proper workshops, drill yard and convenient quarters for the men. I am pleased to be able to report that progress has been made in building the District Fire Station in Central Avenue. This station will have accommodation for five appliances and will protect a very important and congested area. It is anticipated that the station will be occupied about the beginning of October 1921. Plans and estimates have been prepared for extending Chitpur Station, and provision for this is being made in the budget of 1921-22. It is very important that the station should be put on a footing commensurate with the many serious fire risks it protects. A District Fire Station is urgently needed at the Kidderpore Docks, and smaller fire stations are required at Burra Bazar and Sova Bazar. The small fire stations at Watgunge and Palmer's Bridge have been vacated owing to the increased number of motor appliances employed, and the men and appliances have been distrsbuted amongst the various stations of the Brigade.

9. **Staff.**—The strength of the Fire Brigade was 222 at the beginning of the year, and under Government order No. 2902M., dated the 30th November 1920, the number of the European firemen has been reduced from 7 to 4 from 1st December 1920. The actual strength of the Brigade was 219 at the close of the year. The curtailed European strength is barely sufficient to cope efficiently with the large amount of work involved, and does not provide a sufficient margin for sickness, injuries or leave.

10. **Fatalities and Accidents.**—Short details of fires and calls involving loss of life and accidents are given in Appendix XIV. I regret to note that during the year (1) Engineer Bishop met with an accident which resulted in the loss of his right eye and (2) Khalasi Dost Mahommed Khan accidently slipped and fell from the motor engine. He sustained serious injuries and was admitted to hospital, where he subsequently died. Government sanctioned a pension of Rs 6 per month to his wife (Government order No. 1188L.G., dated 10th February 1921). The total number of fatalities during the year was 29 as compared with 46 in the previous year. Of these 3 were cases of suicide by burning. First-aid was rendered in almost all cases of injury by the Fire Brigade, and injured persons were conveyed to hospital.

11. **Horses.**—The number of the horses was the same as last year.

12. **Water Supply.**—For several years past the extremely serious conditions due to inadequate water supply had been commented upon in the annual report, and I regret to say that no action has been taken by the municipalities concerned. The conditions are worse now than previously owing to many tanks having been filled up on sanitary grounds and for prevention of mosquitoes. Calcutta has a system of unfiltered water mains which is used for fire extinguishing. Numerous complaints have been submitted to the Water-works Department regarding the inadequacy of the water supply, in reply to which the Fire Department is officially informed that no improvement can be expected until a new water system is completed. I understand that new scheme will take at least five years to instal, and the present deterioration of water supply will continue, probably more rapidly than hitherto, due to extension of mains, more connections, wear and tear of machinery, etc. Unless immediate steps are taken to improve matters very serious fires must inevitably occur. An estimate was put up by the Water-works Executive Engineer to instal seventy-five 5″ hydrants on suitable mains which will enable fire engines to obtain a better supply, but this estimate was cut down to twenty-five 5″ hydrants. In a city such as Calcutta this number is totally inadequate.

Regarding Howrah and Chitpur the dangerous state of affairs was specially pointed out and emphasized by the Commissioner of Police, who said in the covering letter to the Government of Bengal with the annual report of the Fire Brigade for the year ending 30th March 1920—"The question of the water supply in the districts of Howrah and Chitpur demands immediate attention as these areas comprise very dangerous fire risks." I regret to say that not only has nothing been done to improve the supply, but conditions are even worse now as above noted, and the various areas referred to are becoming more congested with warehouses, etc. Repeated representations have been made to these municipalities, and the following is an extract from a letter received from Howrah :—

"With reference to your letter No. F. B. 288-299, dated the 25th February last, on the subject of water supply for fire extinguishing purposes, I have the honour to inform you that the scheme for effective water supply in the locality appears to be too costly to permit this municipality to meet at the present moment, and mill owners who are directly interested in them have refused to pay any moiety of the cost of the scheme."

It is no uncommon occurrence for as many as 300 lengths of hose to be used at big fires owing to the distance the water is away from the risks. This is a source of considerable expense to the Fire Brigade, and does not permit of efficient working. The comparative freedom from very serious fires appears to have created an atmosphere of false security. It is hoped that the question of water supplies will receive the urgent attention its importance demands.

13. **Fire Float.**—I am glad to be able to report that an order has been placed by the Commissioners for the Port of Calcutta for a new fire float, and delivery is expected about the end of the present year This vessel will pump about 4,000 gallons per minute and will be a great acquisition, especially as practically the whole of the serious fire risks in Chitpur and Howrah have to rely upon the river for water supply for fire extinguishing.

The present fire float, which consists of a hopper barge with a land steam fire engine on it, is obsolete and incapable of performing the duties required of it. It is maintained by the Commissioners for the Port of Calcutta, and is under the direction of the Fire Brigade at fires.

14. **Street Fire Alarms, Telephones and Electrical Communications.**—The means by which fire calls have been transmitted to the Fire Brigade during the year are shown in Appendix II. Appendix XVI is a list showing the positions of the Street Fire Alarms in commission. I regret to have to report a considerable increase in the number of false alarms both wilful and due to electrical defects. The following alterations have been made in the locations of the Street Fire Alarms :—

Lower Circular Road and Chowringhee to in front of Atlas Jute Press, Chitpur.

Barrackpore Trunk Road to near entrance to Union Jute Press.

Majerhat Bridge at Diamond Harbour Road to at the corner of Chitpur Ghat Street and Turner Road.

Gun Foundry Road to opposite Bengal Hydraulic Press near Gun Foundry Road.

It is hoped that false alarms due to electrical defects will soon be more or less eliminated, as the Bengal Telephone Company report that as soon as the various fire alarm lines are transferred from the old exchange to the new exchange such defects will be remedied. Power to punish adequately offenders who give wilful false alarms is being requested from Government. The present punishments have no deterrent effect. I take the opportunity of thanking the Bengal Telephone Company for the interest they continue to display in all matter appertaining to Fire Brigade work and for the promt attention given to all defects on fire lines.

15. **Inspection Department, theatres and places of public amusement.**—Considerable progress has been made during the year in respect to safeguarding the public in places of amusement. Experience has shown that there has been overlapping of different authorities in the matter—a factor which has a deterrent effect on the enforcement of the laws—and it seems advisable for the control of theatres, etc., to be vested in one authority. The fines imposed in the Municipal Court on theatres for breach of the theatre by-laws during the year amounted to Rs. 2,524 as compared with Rs. 11,315 in the previous year.

In connection with the Licensed Warehouse and Fire Brigade Act, I of 1893, during the year under review 5,196 inspections have been made (exclusive of theatres and places of public amusement); 319 applications for licenses and complaints have been attended to and disposed of. One hundred and eighty-seven prosecutions were instituted under section 14 of Act I of 1893, which resulted in 139 persons being fined aggregating in all Rs. 2,744, 21 persons being warned, 11 acquitted and 16 cases withdrawn and filed.

16. **Fire Brigade-Workshops.**—Under the heading of "Fire Stations" reference has been made to the Brigade Workshop. The workshops at headquarters are inadequate for the amount and class of work to be done, and when new and up-to-date workshops are provided repairs and building of machines will be greatly facilitated. Although the number of machines in the Brigade has greatly increased during the past few years the strength of the workshop staff has remained practically the same, and additions will have to be made to the staff.

17. **General.**—The Calcutta Fire Brigade protects the municipalities of Calcutta, Cossipore-Chitpur, Howrah, Maniktala and Garden Reach and may attend fires outside the boundaries of these municipalities, but not exceeding a radius of 6 miles from the Central Fire Station, provided that appliances can be spared and on payment of a prescribed fee. Appendix XIX gives the Government order relating to this and the form which should be signed prior to the Fire Brigade leaving the jurisdiction of the above municipalities. The actual area protected by the Calcutta Fire Brigade is just over 113 square miles and the population included in same is about 1½ millions.

18. **Ambulance Service.**—The Motor Ambulance Service has a lot of valuable work, no less than 13,785 calls having been received during the year under review as compared with 16,060 calls in the previous year. Two more new Ford Ambulances have been purchased and put in commission during the year. Appendix XXI gives the number of calls received every day and month throughout the year, and Appendix XXII gives the scale of charges for the use of the motor ambulances. The Ambulance Department is financially maintained by Government and the Corporation of Calcutta at the proportion of one-third and two-thirds respectively. Appendix XX gives a statement of receipts and expenditure incurred by the Motor Ambulance Service.

N.B —Some Appendices referred to in the above report are not printed in the Gazette.

APPENDIX I.

Statement showing receipts and expenditure of the Fire Brigade for 1920-21.

The year opened with a balance of Rs. 1,25,969 15-10 and the receipts amounted to Rs. 4,47,534-11-3 and the total expenditure to Rs. 4,61,031-2 7, leaving a balance of Rs. 1,12,413-8-6.

Receipts.

The receipts show an increase of Rs. 20,237-11-3 over the estimate on account of the Cossipore-Chitpur Municipality having paid up during the year the sum of Rs. 16,827, which was the balance due from them out of the contribution payable for the year 1919-20. The credits on account of hire of engines, etc., in connection with calls outside the Brigade jurisdiction amounted to Rs. 2,489. The fees under the Petroleum Act and Fire Works Act show an increase of Rs. 2,373-8 and Rs. 40, respectively, over the estimate.

Expenditure.

Under head "Establishment" there was an increase of Rs. 3,103-7-5 owing to the revision in the pay of the staff during the year.

The total expenditure under head "Contingencies" amounted to Rs. 3,18,464-6-9 against a budget grant of Rs. 4,22,402, showing a decrease of Rs. 1,03,937-9-3. The saving includes (*i*) Rs. 27,000 provided in the budget for the purchase of one combined appliance including pump, ladders and first-aid cylinders, (*ii*) construction of Central Avenue Fire Station Rs. 58,145 and (*iii*) rents and taxes Rs. 16,800.

Under head "Other charges" there was an increase of Rs. 2,568-4-5 due to the increased expenditure on water pressure.

No. 1357 G., dated Howrah, the 8th July 1921.

From—BABU CHARU CHANDRA SINHA, M.A., B.L., Chairman, Howrah Municipality.

To—The Magistrate of Howrah.

As requested in your letter No. 110 G., dated the 31st May 1921, I have the honour to submit herewith two statements showing the warehouses licensed under the Fire Brigade Act, I of 1893, and receipts and disbursements on account of the same for the year 1920-21. The former statement has been prepared in accordance with the instructions contained in the Government of Bengal, Municipal Department, No. 470 M., dated the 14th February 1917, to the Commissioner of the Burdwan Division, and forwarded under his memorandum No. 137 M-XXIII-8, dated the 16th February 1917.

The collection of fees works out to be 94 per cent. of the current demand and 59 per cent of the arrear demand as against 86 per cent. of the current demand and 95 per cent. of the arrear demand of the year 1919-20. The demand for the year 1920-21 amounted to Rs. 30,232 and the collection to Rs. 28,494 as against Rs. 29,183 and Rs. 25,055 for demand and collection respectively, for the year 1919-20.

The contribution which the Commissioners were called upon to pay for the maintenance of the Fire Brigade amounted to Rs. 59,006 and fell far short of the collection made under the Act.

The scale of fees remained the same as that reported in this office letter No. 1109 G., dated the 8th July 1920.

The direction contained in the first proviso to section 10 of the Act was followed.

J. E. C. JUKES,
Joint Secretary to the Government of India.

Leave Procedure Rules made under Fundamental Rule 74 (*b*).

REPORT OF ARRIVAL IN THE UNITED KINGDOM.

1. A Government servant taking leave in the United Kingdom must report his arrival in that country to the High Commissioner for India.

PAYMENT OF LEAVE SALARY.

Payment at the Home Treasury.

2. No Government servant can begin to draw leave salary from the Home Treasury until he has presented to the High Commissioner a leave-salary certificate in such form as the Auditor-General may prescribe.

3. Leave-salary is issued from the Home Treasury monthly in arrear on the first day of each calendar month.

4. Payment will be made, at the option of the Government servant drawing leave-salary, by any of the following methods :—

(*a*) To the Government servant himself on his personal application.

(*b*) To his banker or other agent, duly authorised under power-of-attorney, on production of a life certificate duly filled up and executed. In cases where the banker has guaranteed the Secretary of State or the High Commissioner against loss consequent upon dispensation with proof of existence, a life certificate is unnecessary.

Note.—A supply of life certificate forms may be obtained from the High Commissioner.

(*c*) To the presenter of a payment form comprising a receipt and a life certificate, both duly completed by the Government servant.

Note.—If the Government servant intimates to the High Commissioner his election of this method, he will be regularly supplied with the requisite payment form as the due date of issue approaches.

Payment in a Colony.

5. No Government servant can begin to draw leave-salary from a Colonial treasury until a warrant in form I has been issued in his favour. Such warrants will be issued in triplicate. The original, bearing the Government servant's signature, will be forwarded by the issuing authority to the Colonial authority concerned; the duplicate to the High Commissioner; and the triplicate will be retained by the Government servant. Payment of leave-salary will not be made unless the Colonial authority is in possession of the original and the Government servant of the triplicate of the warrant.

6. Each payment of leave-salary must be endorsed upon the back of both the original warrant and the triplicate, and an acknowledgment of receipt must be endorsed by the Government servant upon the back of both copies.

7. When no space for the entry of endorsements of payment remains upon the back of a warrant, or when a warrant is lost or destroyed, a fresh warrant will be issued by the original issuing authority on the application of the Government servant submitted through the Colonial disbursing officer.

8. If the transfer from one Colony to another of payment of the leave-salary of a Government servant is sanctioned by the Colonial authorities, such transfer must be reported by the Government servant to the Governor-General in Council and to the High Commissioner.

Transfer of payment from the Home Treasury to a Colony and vice versa

9. (*a*) If a Government servant who is drawing his leave-salary in a Colony desires to transfer payment to the Home Treasury, he can do so on production of his warrant to the High Commissioner.

(*b*) If a Government servant who is drawing his leave-salary from the Home Treasury desires to transfer payment to a Colony, he must obtain a warrant in Form I from the High Commissioner, who will forward the original of the warrant to the Colonial authority concerned.

(*c*) A transfer sanctioned under clause (*a*) or (*b*) of this rule must be reported by the Government servant to the Governor-General in Council.

EXTENSION OF LEAVE.

General rule

10. A Government servant absent from India on leave who desires an extension of his leave must make application for such extension not less than three months before the expiry of his leave. An application made within three months from such expiry will not be considered unless special reasons for consideration exist.

Applications by Government servants on leave in Europe, North Africa, America or the West Indies.

11. An application for extension of leave by a Government servant on leave in Europe, North Africa, America or the West Indies must be made to the High Commissioner. Unless the extension is desired on medical grounds or is for a period of not more than fourteen days, the application must be accompanied by evidence that the Government on whose cadre the Government servant is borne has been consulted and has no objection to the extension. It is in exceptional cases only that the High Commissioner will grant an extension without the production of such evidence, and then for such period only as may be necessary to obtain the orders of the Government concerned, which will be sought by telegraph at the applicant's expense.

12. If a Government servant on leave in any of the localities named in rule 11 desires, on medical grounds, an extension for a longer period than fourteen days, he must satisfy the Medical Board at the India Office of the necessity for the extension. In order to do so, he must, as a general rule, appear at the India Office for examination by the Board; but in special cases, and particularly if he be residing at a distance of more than sixty miles from London, a certificate in a form to be obtained from the High Commissioner may be accepted if signed by two medical practitioners. A certificate obtained outside the United Kingdom and signed by foreigners must be attested by consular or other authority as bearing the signatures of qualified medical practitioners.

13. If a Government servant on leave in any of the localities named in rule 11 desires, on grounds other than medical, an extension of leave granted on medical certificate, he must satisfy the Medical Board at the India Office by the procedure described in rule 12, that he has recovered his health.

Applications by Government servants on leave elsewhere out of India

14. An application for extension of leave by a Government servant on leave out of India elsewhere than in the localities named in rule 11 must be made to the authority which granted the leave.

15. If an application made under rule 14 is for an extension of leave on medical certificate, it must be accompanied by a certificate from two medical practitioners in the following form :—

"We hereby certify that we have carefully examined C. D. of the_____ who is suffering from _____ and we declare upon our honour that, according to the best of our judgment and belief, he is at present unfit for duty in India, and that it is absolutely necessary for the recovery of his health that his present leave, which will expire in India on _____, shall be extended by _____ months / weeks."

Date _____

Place _____

The certificate must describe in full detail the nature of the disease and the present condition of the Government servant. If it be signed by

foreigners, it must be attested by consular or other authority as bearing the signatures of qualified medical practitioners.

Certificate of leave necessary before extension can be granted to a Government servant who is not in possession of a leave-salary certificate.

16. An extension of leave will not be granted by the High Commissioner to a Government servant to whom no leave-salary certificate has been issued, or who has exchanged his leave-salary certificate for a warrant before leaving India, unless he produces a certificate of leave in form II.

RETURN FROM LEAVE.

Permission to return.

17. A Government servant who is required, by or under fundamental rule 71, to produce a medical certificate of fitness before returning to duty, must obtain permission to return to duty before so returning.

18. If the Government servant desiring to return is on leave in any of the localities named in rule 11, his application must be made to the High Commissioner and he must satisfy the Medical Board at the India Office of his fitness to return at least two months before the expiry of his leave. In order to do so, he must follow the procedure prescribed in rule 12. When the Medical Board has been satisfied, the High Commissioner will grant permission to return.

19. If the Government servant desiring to return is on leave out of India elsewhere than in the localities named in rule 11, his application must be made to the authority which granted his leave and must be accompanied by a certificate of fitness in the prescribed form.

20. Permission to return cannot be granted to a Government servant to whom no leave-salary certificate has been issued, or who has exchanged his leave-salary certificate for a warrant before leaving India, until he produces a certificate of leave in form II.

Last-pay certificate.

21. Before returning to duty, a Government servant on leave in Europe must obtain a last-pay certificate from the High Commissioner. A last-pay certificate cannot be granted to a Government servant to whom no leave-salary certificate has been issued unless he produces a certificate of leave in form II. A Government servant who has drawn his leave-salary on a warrant must, on return to India, deliver to the audit officer his copy of the warrant, which will serve as a last-pay certificate.

NOTE 1.—No leave-salary is payable on this certificate.

NOTE 2.—This certificate must be produced before the High Commissioner with any application for an extension of leave or permission to return to duty or the grant of a last-pay certificate.

Memorandum explanatory of each rule in the rules of leave procedure made under fundamental rule 74 (*b*).

Rule 1—is taken from article 222, Civil Service Regulations, with the substitution of the High Commissioner for the Secretary of State.

Rule 2.—This is taken from articles 867 and 874, Civil Service Regulations, and covers the first part of article 886 also. The High Commissioner has been substituted for the Secretary of State, as he will in future pay leave-salary on behalf of the Government of India.

Rule 3—replaces the first part of article 869 of the Civil Service Regulations. The old arrangements of quarterly calculations and rounded instalments will not be maintained in future.

Rule 4—replaces the second part of article 869, Civil Service Regulations. At the suggestion of the High Commissioner, the procedure has been modified in some respects.

Rule 5—contains the substance of the first part of article 889, Civil Service Regulations.

Rule 6—is the second part of article 889, Civil Service Regulations, amplified in accordance with existing practice.

Rule 7—contains the substance of the last part of article 889, Civil Service Regulations.

Rule 8—contains the relevant part of article 891, Civil Service Regulations, with the High Commissioner substituted for the Under-Secretary of State.

Rule 9—provides for certain cases for which the old rules make no specific provision. It is considered unnecessary in this connection to provide for article 871 (*b*), Civil Service Regulations, as the procedure thereby prescribed follows necessarily from rules 2 and 5.

Rule 10—contains a regulation previously embodied in articles 299 (*a*) and 300, Civil Service Regulations.

Rule 11—contains the substance of the first paragraph of article 299 (*a*), Civil Service Regulations, and of article 299 (*b*), with the substitution of the High Commissioner for the Secretary of State. The rule makes no mention of commutation of leave, which ceased to exist, under that name, when the fundamental rules came into force. It is considered unnecessary to repeat in these rules the provision that the Government servant on leave must pay the cost of telegrams. The High Commissioner will see to this, and the fact will be mentioned in the memorandum of instructions to officers proceeding on leave. The note under article 299 (*b*) has been omitted for similar reasons.

Rule 12—contains the substance of the second paragraph of article 299 (*a*), Civil Service Regulations, read with article 838 (*a*).

Rule 13—contains the substance of the 1st part of the third paragraph of article 299 (*a*), Civil Service Regulations. The second part of that paragraph is omitted, as it is considered to be unsuitable under the new leave rules.

Rule 14—is taken from the first part of article 300, Civil Service Regulations.

Rule 15—is article 838 (*b*), Civil Service Regulations, re-worded in places.

Rule 16—is taken from articles 872 and 873, Civil Service Regulations.

Rule 17.—The fact stated in this rule is nowhere in the Civil Service Regulations laid down as a general rule, but it follows as a matter of course from the provision in fundamental rule 71 for the production of a medical certificate.

Rule 18—contains the substance of the relevant portion of article 224, Civil Service Regulations, with the substitution of the High Commissioner for the India Office.

Rule 19—also follows as a matter of course from fundamental rule 71. The Government of India propose to delegate the power of extending leave to the authority which granted it.

Rule 20—is taken from articles 872 and 873, Civil Service Regulations.

Rule 21.—"Leave-salary Certificate" is the new title adopted by the Auditor General in his leave procedure rules. The requirement of such a certificate is taken from article 886, Civil Service Regulations; that of a certificate of leave is obviously necessary before a last-pay certificate can be granted; and the delivery of a warrant is taken from article 890, Civil Service Regulations.

Education.

CALCUTTA, THE 8TH FEBRUARY 1922.

RESOLUTION—No. 275Edn.

BY Government resolution No. 965T.—Edn., dated the 26th October 1920, a Selection Committee was appointed to advise Government on the

selection of candidates for direct appointment to the Indian Educational Service and the Provincial Educational Service (now called the Bengal Educational Service). The Government of Bengal (Ministry of Education) are now pleased to issue the following modifications of that resolution and rules to regulate the selection of candidates :—

(*i*) The Selection Committee shall meet as often as necessary, and its functions shall be to consider all applications of candidates for appointment either to the Indian Educational Service or to the Bengal Educational Service referred to it by the Local Government and to maintain a panel or panels of approved candidates.

(*ii*) All candidates of Bengal domicile, wherever resident, who wish to be considered for appointment to any vacancies that may occur in the Indian Educational Service, should apply for appointment to the Government of Bengal. Such applications will be referred to the Selection Committee for consideration and particulars of the candidates approved will be communicated by the Committee to Government and recorded in the lists kept by the Secretary to the Committee. The Local Government will forward a copy of such records to the Government of India in the Department of Education and Health.

(*iii*) A candidate for a particular appointment in any other province who is (*a*) permanently or temporarily resident in Bengal or (*b*) an Indian domiciled in Bengal though resident elsewhere may, when sending his application to the Government of Bengal, send also a copy of his application, clearly marked as such, directly to the Government of the province in which the appointment is to be made. The Government of Bengal will forward the application with its views to the Government concerned, after consultation, in cases where the applicant is domiciled in another province, with the Government of that province.

(*iv*) On the occurrence of a vacancy in the cadre of the Indian Educational Service the Local Government will consider whether it should be filled by a candidate recruited in India or by a candidate recruited in England by the Secretary of State. In the former case the Local Government will make its recommendation to the Government of India, who will submit to the Secretary of State for approval and appointment the name of the person finally selected.

(*v*) If on the occurrence of a vacancy in the Indian Educational Service a suitable Indian candidate is known to be in England, the Local Government will furnish full particulars to the Government of India for communication to the Secretary of State that his case may be considered by the Selection Committee in England.

(*vi*) Before a candidate resident in India is recommended to the Government of India for appointment to the Indian Educational Service his physical fitness should be examined by a Medical Board.

(*vii*) Candidates for college posts in the Bengal Educational Service should apply on the proper form to the Deputy Secretary in the Education Department, Government of Bengal. A panel of approved candidates will be kept by the Selection Committee, and Governing Bodies of colleges, subject to any special powers of appointment possessed by any Governing Body and to any special administrative needs of the Department, will be invited to make recommendations from the panel as vacancies arise. These recommendations will be considered by Government by whom the appointments will be made.

(*viii*) All candidates for appointment either to the Indian Educational Service or to the Bengal Educational Service should obtain the prescribed forms of application from the Assistant Director of Public Instruction, Bengal, Writers' Buildings, Calcutta.

The personnel of the committee will be as notified in resolution No. 965T.—Edn., dated the 26th October 1920. The members other than *ex officio* members will hold office until 31st December 1922.

ORDER—Ordered that the resolution be communicated (*1*) to the Secretary to the Selection Committee for information and (*2*) to the Director of Public Instruction, Bengal, for information and for communication to the Governing Bodies of Government colleges.

Ordered also that the resolution be published in the *Calcutta Gazette* for general information.

By order of the Government of Bengal
(Ministry of Education),

S. W. GOODE,
Secretary to the Government of Bengal (*offg.*).

Final Report on the Cotton Crops of Bengal, 1921-22.

(NOTE.—On an average of the five years ending 1919-20, the area under the cotton crops in Bengal has represented some 0·3 per cent of the total area under cotton in India.)

There are two crops—early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts and in the Tripura State and to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore.

Character of the season.—The weather was not favourable for the early crop at the outset owing to absence of rain. Subsequently monsoon showers caused the crop to recover, but the excessive rain at flowering time in October greatly affected the outturn in the Chittagong Hill Tracts where the crop is mainly grown. Elsewhere a fairly good outturn was obtained.

The conditions for the late crop were favourable up till October, but lack of rain since then has tended to mar what would otherwise have been a good crop.

Area sown.—The total area sown with the early crop is returned at 64,143 acres and that with the late crop 1,713 acres against 69,239 (revised) and 1,707 acres, respectively, in the corresponding forecast of last year.

Outturn.—The estimated outturn of the early crop is returned at 14,244 bales this year against 20,164 (revised) bales in the corresponding forecast of last year. The outturn of the late crop is estimated at 890 bales this year against 892 bales in the corresponding forecast of last year.

(1) The weather was favourable. The harvesting was late owing to late sowing.
(2) The weather has not been favourable. The drought at sowing time affected the area under the early crop, but subsequent good rainfall has improved the outturn.
(3) The weather and the condition of the crop have been fair.
(4) Owing to heavy rain at the time of flowering in October, the condition of the crop is bad.
(5) The weather at present has been favourable. As the crop was affected in the beginning the outturn is expected to be fair.
(6) The weather has been fairly favourable.

JUDICIAL.

Delhi, the 3rd February 1922.

No. F.-228.—In pursuance of sub-section 2 (*i*) of section 101 of the Government of India Act, the Governor General in Council is pleased to appoint Mr. E. B. H. Panton, I.C.S., to act as an Additional Judge of the High Court of Judicature at Fort William in Bengal, with effect from the date of his assumption of the duties of his office up to the 31st March 1922, both days inclusive, or until further orders.

POLITICAL

Delhi, the 10th February 1922.

No. 340.—The following Communiqué, dated the 6th February 1922, is published for general information.

The manifesto issued by Mr. Gandhi on the 4th February justifying his determination to resort to mass civil disobedience contains a series of misstatements. Some of these are so important that the Government of India cannot allow them to pass unchallenged. In the first place they emphatically repudiate the statement that they have embarked on a policy of lawless repression and also the suggestion that the present campaign of civil disobedience has been forced on the non-co-operation party in order to secure the elementary rights of free association, free speech and of free press. In *limine* the Government of India desire to draw attention to the fact that the decision to adopt a programme of civil disobedience was finally accepted on the 4th November before the recent notifications relating either to the Seditious Meetings Act or the Criminal Law Amendment Act, to which Mr. Gandhi unmistakeably refers, were issued. It was in consequence of

serious acts of lawlessness committed by persons who professed to be followers of Mr. Gandhi and the non-co-operation movement that the Government were forced to take measures which are in strict accordance with the law for the protection of peaceful citizens in the pursuit of their lawful avocations.

2. Since the inauguration of the non-co-operation movement, the Government of India actuated by a desire to avoid anything in the nature of the repressions of political activity, even though it was of an extreme character, have restricted their action in relation thereto to such measures as were necessary for the maintenance of law and order and the preservation of public tranquillity. Up to November no steps save in Delhi last year were taken against volunteer associations. In November however the Government were confronted with a new and dangerous situation. In the course of the past year, there had been systematic attempts to tamper with the loyalty of the soldiers and the police and there had occurred numerous outbreaks of serious disorder directly attributable to the propaganda of the non-co-operation party amongst the ignorant and exciteable masses. These outbreaks had resulted in grave loss of life; the growth of a dangerous spirit of lawlessness; and an increasing disregard for lawful authority. In November they culminated in the grave riots in Bombay, in which 53 persons lost their lives and approximately 400 were wounded. On the same date dangerous manifestations of lawlessness occurred in many other places and at this period it became clear that many of the volunteer associations had embarked on a systematic campaign of violence, intimidation and obstruction, to combat which proceedings under the Penal Code and the Code of Criminal Procedure had proved ineffective. In these circumstances the Government were compelled to resort to measures of a more comprehensive and drastic character. Nevertheless the operation of the Seditious Meetings Act was strictly limited to a few districts in which the risk of grave disturbances of the peace was specially great and the application of the Criminal Law Amendment Act of 1908 was confined to associations the majority of the members of which had habitually indulged in violence and intimidation. It is impossible here to set out in detail the evidence which justified the adoption of these measures in the different provinces. Abundant proof is however to be found in the published proceedings of the various legislative bodies, in the communiqués of different local Governments, and in the pronouncements of heads of provinces. While resolute in their determination to enforce respect for law and order and to protect loyal and peaceful subjects of the Crown, the Government have at the same time taken every precaution possible to mitigate, where desirable, the conditions of imprisonment and to avoid any action which might have the appearance of vindictive severity. Ample proof of this will be found in the orders issued by local Governments. Numerous offenders have been released; sentences have been reduced and special consideration has been shown in the case of persons convicted of offences under the Seditious Meetings Act or the Criminal Law Amendment Act. There is thus no shadow of justification for the charge that their policy has been one of indiscriminate and lawless repression.

3. A further charge which has been brought by Mr. Gandhi is that the recent measures of Government have involved a departure from "the civilised policy laid down by His Excellency at the the time of the apology of the Ali brothers, namely, that the Government of India should not interfere with the activities of non-co-operators so long as they remained non-violent in word and deed." The following citation from the communiqué of the Government of India issued on the 30th May conclusively disproves this statement. After explaining that in view of the solemn undertaking contained in the statement over their signature, it had been decided to refrain from instituting criminal proceedings against Messrs. Muhammad Ali and Shaukat Ali, the Government of India observed:

> "It must not be inferred from the original determination of the Government to prosecute for speeches inciting to violence, that promoting disaffection of a less violent character is not an offence against the law. The Government of India desire to make it plain that they will enforce the law relating to the offence against the State as and when they may think fit against any persons who have committed breaches of it."

4. It remains for the Government of India to deal with the allegation that His Excellency summarily rejected the proposal for a conference although the terms put forward by the Conference at Bombay and accepted by the Working Committee of the Congress were "quite in keeping with His Excellency's own requirements as indicated in his speech at Calcutta." How far this is from being the case will be manifest from a comparison of His Excellency's speech with the terms proposed by the Conference. His Excellency in that speech insisted on the imperative necessity as a fundamental condition precedent to the discussion of any question of a conference, or the discontinuance of the unlawful activities of the non-co-operation party. No assurance on this point was, however, contained in the proposals advanced by the Conference. On the contrary whilst the Government were asked to make concessions which not only included the withdrawal of the notifications under the Criminal Law Amendment and Seditious Meetings Acts and the release of persons convicted thereunder, but also the release of persons convicted of offences designed to affect the loyalty of the army, and the submission to an arbitration committee of the cases of other persons convicted under the ordinary law of the land—there was no suggestion that any of the illegal activities of the non-co-operators other than hartals, picquetting and civil disobedience should cease. Moreover it was evident from the statements made by Mr. Gandhi at the Conference that he intended to continue the enrolment of volunteers in prohibited associations and preparations for civil disobedience. Further Mr. Gandhi also made it apparent that the proposed Round Table Conference would be called merely to register his decrees. It is idle to suggest that terms of this character fulfilled in any way the essentials laid down by His Excellency or can reasonably be described as having been made in response to the sentiments expressed by him. Finally the Government of India desire to draw attention to the demands put forward in the concluding paragraph of Mr. Gandhi's present manifesto which exceed even the demands made by the Working Committee of the congress. Mr. Gandhi's demands now include—

(1) the release of all prisoners "convicted or under-trial for non-violent activities;"

(2) a guarantee that Government will refrain absolutely from interference with all non-violent activities of the non-co-operation party even though they fall within the purview of the Indian Penal Code; or in other words an undertaking that Government will indefinitely hold in abeyance in regard to the non-co-operators the ordinary and long-established law of the land.

In return for these concessions he indicates that he intends to 'continue the illegal and seditious propaganda and operations of the non-co-operation party, and merely offers to postpone civil disobedience of an aggessive character until the offenders now in jail have had an opportunity of reviewing the whole situation. In the same paragraph he re-affirms the unalterable character of the demands of his party.

The Government of India are confident that all right thinking citizens will recognise that this manifesto constitutes no response whatever to the speech of His Excellency at Calcutta and that the demands made are such as no Government could discuss, much less accept.

5. The alternatives that now confront the people of India are such as sophistry can no longer obscure or disguise. The issue is no longer between this or that programme of political advance, but between lawlessness with all its dangerous consequences on the one hand and on the other the maintenance of those principles which lie at the root of all civilised Government.

Mass civil disobedience is fraught with such danger to the State that is must be met with sternness and severity. The Government entertain no doubt that in any measures which they may have to take for its suppression they can count on the support and assistance of all law abiding and loyal citizens of His Majesty.

STATEMENT OF OBJECTS AND REASONS.

In view of the attempts that have been made and are being made (*a*) by means of threats, intimidation and otherwise to induce members of the Police-Force to refrain from doing their duty, and (*b*) to spread disaffection among them, the Government of India have for some time had under consideration the question of penalizing such attempts. Neither the Indian Penal Code nor the Indian Police Act, 1861, contains provisions to meet this evil. A prosecution could doubtless in certain cases be instituted under section 29 of the Indian Police Act, 1861, read with the abetment sections of the Indian Penal Code, but section 29 of the Police Act was designed to meet ordinary breaches of discipline, and would not cover many dangerous forms of tampering with the police. Moreover, the maximum punishment permissible under that section, viz., three months' rigorous imprisonment is manifestly inadequate for serious offences of this nature. The Government of India are accordingly of opinion that the authorities should be given additional means of dealing with this form of crime, and it is proposed, therefore, to enact the attached Bill, which has been framed on the lines of section 3 of the English Police Act of 1919 (9 & 10 Geo. V, Ch. 46).

DELHI: W. H. VINCENT.

The 20th January, 1922.

H. MONCRIEFF SMITH,
Secretary to the Government of India.

STATEMENT OF OBJECTS AND REASONS.

This Bill is intended to take the place of the Bill which was introduced in the Legislative Assembly on the 1st March 1921, and was withdrawn with the leave of the Assembly on the 25th January 1922. The object of that Bill was to provide more effective means of meeting the great evil arising from the institution of fraudulent and dishonest suits by empowering Courts to award compensatory costs in fraudulent suits. The Bill was circulated for the purpose of eliciting opinions, and along with the opinions received, was referred to a Committee consisting of Members of the Council of State and the Legislative Assembly appointed by the Governor General in Council. The Committee was of the opinion that the summary procedure proposed by the Bill was likely to prove far more of a deterrent than the fear of a prosecution for perjury in the remote future. They considered, however, that the scope of the Bill should be extended in certain respects.

The detailed recommendations of the Committee were was follows :—

"*I.—Limitation of amount to be awarded.*

"It was agreed that the amount to be awarded should not exceed the pecuniary limits of the jurisdiction of the Court or Rs. 1,000, whichever is less, with the following special provisions regarding Courts exercising Small Cause Court powers, namely, a maximum of Rs. 250 for a Munsiff and Rs. 500 for a subordinate Judge; a provision to be added that these maxima are to be subject to rules made by the High Court so as to enable High Courts to limit the amount awardable by certain classes of Courts, *e.g.*, the lower grade Courts of Munsiffs with limited jurisdictions as in the Punjab.

"*II.—Appeals.*

"In connection with this, it was incidentally decided that provision should be made for reasons to be recorded in writing whenever an order is made awarding compensatory costs. It was also agreed that there should be an appeal in every case, except that (*a*) there should be no appeal against an order refusing damages or against the absence of any order, and (*b*) there should be no appeal by way of cross appeal or otherwise asking for an increase of the amount awarded. It was agreed that in no case should there be a second appeal.

"*III.—False defences.*

"Though the Committee was not entirely unanimous on the point, it was agreed that provision should be made also for the award of damages to the plaintiff where a false defence was set up by the defendant.

"*IV.—Execution proceedings.*

"It was pointed out that the evil existed to a larger extent in execution proceedings than in original suits, and it was unanimously decided that the provisions of the Bill should apply to false claims put forward in support of execution proceedings as well as to false objections.

"*V.—Vexatious suits.*

"The opinion was generally held that the provisions of the Bill should apply to suits, etc., which are both false and vexatious. The matter was left to be examined by the draftsmen.

"*VI.—Operation of the Bill.*

"It was agreed that the Bill should only come into operation in such areas as might be notified by the Local Government, with the sanction of the Governor General in Council. It was suggested that the power to extend the operation might cover the whole or any specified portion of the Bill."

The present Bill has been prepared in order to carry out the recommendations of the Committee.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 31st January, 1922 :—

No. 6 OF 1922.

A

BILL

further to amend the Code of Criminal Procedure, 1898.

WHEREAS it is expedient to give a legal status to persons practising as lawyers in Criminal Courts, known as Mukhtars, and further to amend the Code of Criminal Procedure, 1898, for that purpose; It is hereby enacted as follows :— V of 1898.

Short title and extent.

1. (*1*) This Act may be called the Code of Criminal Procedure (Amendment) Act, 192 .

(*2*) It shall extend to the whole of British India.

Amendment of section 4, Act V of 1898.

2. In clause (*r*) of sub-section (*1*) of section 4 of the Code of Criminal Procedure, 1898, after the words "an attorney of a High Court," the words "and a mukhtar" shall be inserted, and the words "mukhtar or" shall be omitted. V of 1898.

STATEMENT OF OBJECTS AND REASONS.

Persons practising in Criminal Courts known as mukhtars practise under a licence from the High Courts after duly passing an examination held under the auspices of the High Courts for that purpose and are recognised practitioners in Criminal Courts. For all practical purposes, they are treated as recognised members of the profession. Under the present law the mukhtars have received permission from the Courts to act for their clients. In fact, this permission is usually and generally granted, but in some rare cases have been withheld. Above all, the members of the profession have a sentimental grievance inasmuch as they have been placed in the same category as ordinary persons without any training or licence. The grievance has caused much discontent, and it is desirable that it should be removed. This will not affect the dignity or status of any class of lawyers, or in any way affect the administration of justice. As the mukhtars have to pass a fairly good test and have to renew their licence every year, which depends upon their professional good conduct, it is unnecessary to retain the disability under which they at present suffer.

Clause 2 removes the disabilities referred to above.

CALCUTTA, *the 10th February 1922.*

BRITISH POSSESSIONS.

Caution when approaching British Ports.

No. 71 (first publication).—The following particulars, etc., relative to the above, issued by the British Admiralty (No. 1 of 1922), are republished :—

PART I.

Closing of Ports.

Former Notice.—No. 1 of 1921. (*This office No. 69 of 1921*); hereby cancelled.

(1) My Lords Commissioners of the Admiralty, having taken into consideration the fact that it may be necessary to forbid all entrance to certain ports of the Empire, this is to give notice that on approaching the shores of the United Kingdom, or any of the ports or localities of the British Empire, a sharp look-out should be kept for the signals described in the following paragraph, and for the vessels mentioned in paragraph (5), Part II, of this notice, and the distinguishing and other signals made by them. In the event of such signals being displayed, the port or locality should be approached with great caution, as it may be apprehended that obstructions may exist.

(2) If entrance to a port is prohibited three *red* vertical lights by night, or three *red* vertical balls by day, will be exhibited in some conspicuous position, in or near to its approach, which signals will also be shown by the vessels indicated in paragraph (5), Part II, of this notice.

If these signals are displayed, vessels must approach the port with the greatest caution and implicitly obey all orders or signals given them by the Examination vessel or signal station.

(3) At some ports or localities at home or abroad, search-lights are occasionally exhibited for exercise.

Instructions have been given to avoid directing moveable search-lights during practice on to vessels under way, but mariners are warned that great care should be taken to keep a sharp look-out for the signals indicated in paragraph (2) above, when search-lights are observed to be working.

PART II.

Examination Service.

(4) In certain circumstances it is also necessary to take special measures to examine vessels desiring to enter ports or localities at home or abroad.

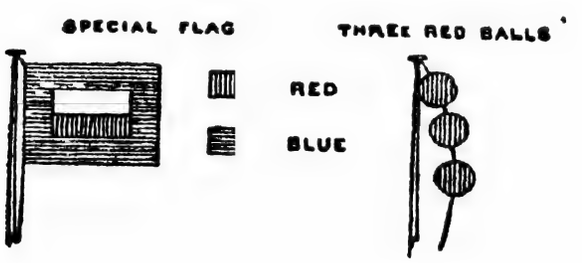
(5) In such case, vessels carrying the distinguishing flags or lights mentioned in paragraph (7) will be charged with the duty of examining ships which desire to enter the port and of allotting positions in which they shall anchor. If Government vessels, or vessels belonging to the local port authority, are found patrolling in the offing, merchant vessels are advised to communicate with such vessels with a view to obtaining information as to the course on which they should approach the port. Such communication will not be necessary in cases where the pilot on board has already received this information from the local authorities.

(6) As the institution of the Examination Service at any port will never be publicly advertised, especial care should be taken in approaching the ports, by day or night, to keep a sharp look-out for any vessel carrying the flags or lights mentioned in paragraph (7), and to be ready to "bring to" at once when hailed by her or warned by the firing of a gun or sound rocket.

In approaching by night any British port in the United Kingdom or abroad, serious delay and risk will be avoided if four efficient all round lanterns, two *red* and two *white*, are kept available for use.

(7) **By day** the distinguish[illegible] flag of the Examination Steamer will be a special flag (white and red ho[illegible]ontal surrounded by a blue border).

Also, three red vertical balls if [illegible]e port is closed.



Usually the Examination Steamers will fly the blue ensign, but in certain circumstances they may fly the white ensign.

By night the steamer will carry :—

(*a*) Three *red* vertical lights if the port is closed.
(*b*) Three *white* vertical lights if the port is open.

The above lights will be carried in addition to the ordinary navigation lights, and will show an unbroken light around the horizon.

(8) Masters are warned that, when approaching a British port where the Examination Service is in force, they must have the signal letters of their vessel ready to hoist immediately the Examination Steamer makes the signal : "What ship is that ?"

(9) Masters are warned that, before attempting to enter any port when the Examination Service is in force, they must in their own interests strictly obey all instructions given to them by the Examination Steamer.

Whilst at anchor in the Examination Anchorage, Masters are warned that it is forbidden, except for the purpose of avoiding accident, to do any of the following things, without permission from the Examining Officer :—

To lower any boat.

To communicate with the shore or with other ships.

To move the ship.

To work cables.

To allow any person or thing to leave the ship.

(10) In case of fog, Masters are enjoined to use the utmost care, and the port should be approached with caution.

(11) When the Examination Service is in force merchant vessels when approaching ports are especially cautioned against making use of private signals of any description, either by day or night; the use of them will render a vessel liable to be fired on.

(12) The pilots attached to the ports will be acquainted with the regulations to be followed.

PART III.

Mine-sweeping Operations.

H. M. Vessels engaged in mine-sweeping operations or exercises are hampered to a considerable extent in their manœuvring powers.

With a view to indicating the nature of the work on which they are engaged, these vessels will show the signals hereinafter mentioned. For the public safety all other vessels, whether steamers or sailing craft, should endeavour to keep out of the way of vessels flying these signals and not approach them inside the distances mentioned herein, specially remembering that it is dangerous to pass between the vessels of a pair or group sweeping together.

1. Signals that will be Shown by Day.

(*a*) By vessels working singly :—

A black ball at the foremast head, and a similar ball at each yard-arm or where they can best be seen.

Vessels showing this signal should not be approached nearer than 900 yards (822^{m}9).

(*b*) By vessels working in pairs or groups :—

A black ball at the foremast head, and a similar ball at the yard-arm or where it can best be seen, on that side on which it is dangerous to pass.

Vessels should not pass within a distance of 400 yards (365^{m}8) astern of a pair or group of sweepers, or when more than one pair or group are working in company within a distance of 400 yards (365^{m}8) astern of the rear pair or group. They should on no account attempt to pass between pairs or groups working in company.

2. Signals that will be Shown by Night.

As for day, except that all round green lights will be used in a similar manner to and in place of the black balls.

CALCUTTA, THE 14TH FEBRUARY 1922.

RESOLUTION—No. 2755P.

READ—

The report of the committee appointed by the Government of Bengal to advise on the question of a suitable site for the new headquarters of the Noakhali district in the event of the diluvion of the existing Government buildings.

The erosion of the town of Noakhali has been engaging the attention of Government for a considerable time. The policy followed has been to retain

the headquarters of the district at Noakhali as long as it is possible to do so, and at the same time, pending more definite developments, to provide the safeguard of a temporary provision which would enable the administration of the district to be carried on should existing public buildings disappear. Accordingly certain temporary buildings were constructed to replace those washed away, and land was acquired in 1920 at Maijdi in the vicinity of Noakhali with a view to combining the use of the buildings left at Noakhali with temporary ones to be constructed, when required, on this site. Owing to the continued erosion, a decision has now to be come to as to the future headquarters of the district should the abandonment of the existing town become unavoidable, and, in view of the divergent opinions expressed on the question of a suitable new site, the Governor in Council considered it desirable that a public enquiry should be made by a small committee composed of officials and non-officials before whom all sections of the community could represent their views. A committee consisting of the following members was therefore appointed :—

(1) The Commissioner of the Chittagong Division, *President*,
(2) The Collector of Noakhali,
(3) The Superintending Engineer, Eastern Circle,
(4) Babu Annada Charan Dutt, M.L.C.,
(5) Khan Sahib Bazlul Haq,
(6) Rai Raj Kumar Dutt Bahadur,
(7) Babu Karuna Chandra Das,
(8) Maulvi Majibal Haidar Chaudhuri,

to advise where the new headquarters of the district could be located to the best advantage, assuming its construction to be necessary.

The report of the committee which has been received has been carefully considered, and the Governor in Council has decided to accept the recommendation made therein that the new headquarters of the district should be located at the site already acquired at Maijdi. Steps are being taken for the preparation of a project estimate for raising the site and the construction of the buildings most urgently required.

ORDERED that this resolution together with the report of the committee be published in the *Calcutta Gazette* for general information.

By order of the Governor in Council,

H. L. STEPHENSON,
Chief Secretary
to the Government of Bengal.

Report of Committee appointed by the Government of Bengal to advise where the new headquarters of the Noakhali district could be located to the best advantage.

The committee sat from 11-30 A.M. to 4 P.M. at the Collectorate Buildings in Noakhali on the 17th December 1921. On this occasion there were present the following members of the committee :—

(1) The Commissioner of the Chittagong Division, *President.*
(2) The Collector of Noakhali, *Secretary, appointed by the Committee.*
(3) The Superintending Engineer, Eastern Circle.
(4) Babu Annada Charan Dutta, M.L.C.
(5) Rai Raj Kumar Dutt Bahadur.
(6) Babu Karuna Chandra Das.

The following members were unable to attend owing to the local board elections :—

(7) Khan Sahib Bazlul Haq.
(8) Maulvi Majibal Haidar Choudhuri.

The committee received numerous representations from various leading gentlemen on behalf of various associations and land-owners of the district.

After a lengthy discussion, the meeting was adjourned to the 18th December, in order to allow the two absent members of the committee an opportunity of representing their views. On this occasion the committee met at the Circuit House at Sonapur, two miles from the town of Noakhali. The sitting lasted from about 11-30 A.M. to 1-30 P.M. The members present were :—

(1) The Commissioner of the Chittagong Division, *President.*
(2) The Collector of Noakhali, *Secretary.*
(3) The Superintending Engineer, Eastern Circle.
(4) Khan Sahib Bazlul Haq.
(5) Babu Karuna Chandra Das.
(6) Maulvi Majibal Haidar Choudhuri.

Other leading gentlemen of the district were also present.

The final decision of the committee was as follows :—

I. The majority of the committee, viz., all the members except Khan Sahib Bazlul Haq, were of opinion that the site for the new headquarters which would be most convenient to the people of the district is the site already acquired at Maijdi, with expansion, if necessary, towards the north and west.

The grounds on which this opinion is based are as follows :—

(1) This site has already been acquired, at considerable expense. The abandoning of this site in favour of any other site would involve loss of money and delay.
(2) The probability of erosion at Maijdi is not great, especially in the present state of the river.
(3) The level of the land acquired at Maijdi is comparatively higher than the land of the other sites, with the exception of the proposed sites at Feni.
(4) The position is central, close to the railway line, and close to the main river. It is equally convenient of access from all parts of the district. It is the most convenient site on the mainland for the islands generally.
(5) It is near the present site of district headquarters and the residential quarters erected for Government officers at Sonapur.
(6) There is already good drinking water available close to the land acquired, which might be utilised.
(7) There will be no material change in the cost of living at Maijdi and no great inconvenience will be caused to the inhabitants of the town of Noakhali by the removal of the headquarters to Maijdi.
(8) The site is a healthy one, and not unpleasant.

II. The majority were also of opinion that in order to avoid the possibility of administration of the district being brought to a standstill, the construction of the most important buildings likely to be required should commence immediately. The burning of bricks and the raising of the site should actually commence not later than the middle of January 1922.

III. The committee in arriving at this opinion considered the representations of various associations and of agents of many of the leading land-owners in the district.

The committee also considered the comparative advantages of the following sites :—

(1) Maijdi, (2) Bajra, (3) Begumganj (near to Choumuhani) and (4) Feni.

From the above conclusions only one member of the committee, viz., Khan Sahib Bazlul Haq, dissented. This gentleman was of opinion that the headquarters of the district should be stationed at Feni, for the following reasons :—

(1) that if a subdivisional headquarters were established near to Noakhali, the objection that Feni is not centrally situated would have little weight.
(2) that Feni is a healthier locality than Maijdi ;
(3) that there was no certainty that Maijdi is free from erosion ;
(4) that there was a time when the majority of the people of the district were in favour of locating the headquarters at Feni ;
(5) that as regards communications Feni is better situated than any other part of the district. The route to the islands *vid* Chittagong is easier and safer than the route *vid* Noakhali ;
(6) Mireswari thana in the district of Chittagong and Choudhagram thana in the district of Tippera might be added to the district of Noakhali. Feni would then become a comparatively central place ;
(7) there was a considerable amount of land at Feni suitable for public buildings and already in possession of the Government. Consequently the erection of the headquarters at Feni would be much cheaper than at any other of the proposed sites ;
(8) the cost of living at Feni is not higher than at Noakhali ;
(9) in view of the fact that Feni would be shortly in possession of an up-to-date College. the district headquarters should also be located at Feni ;
(10) pure drinking water is already available at Feni in Bejoy Singh's tank, which is sufficient to supply drinking water for the whole of the headquarters station ;
(11) the proposed site at Feni was exceedingly pleasant and picturesque.

In view of the above advantages, the Khan Sahib was of opinion that the one disadvantage of Feni, namely, that it was not geographically in the centre of the district might be disregarded.

The majority of the committee disagreed with the Khan Sahib's reasons as well as with his conclusions.

His first reason was not accepted, as it was considered that even with subdivisional headquarters at or near Noakhali, great inconvenience would be felt in going to Feni for the purposes of patni sales, revenue sales and important law suits.

As regards his second reason, it was pointed out that there was no reason to suppose Feni to be healthier than Maijdi.

As regards his third reason, it was considered that on this point the opinion of the Superintending Engineer should prevail.

As regards his fourth reason, it was pointed out that there was no sufficient reason for supposing that public opinion was ever generally in favour of Feni.

As regards his fifth reason, the majority were of opinion that the route to and from the islands *vid* Chittagong was too expensive to be generally used.

As regards his sixth reason, the majority were not in favour of the proposed re-distribution.

As regards his seventh reason, the majority were of opinion that there were not sufficient lands in possession of the Government at Feni to make the construction of the district headquarters in that place appreciably cheaper than at other of the proposed sites.

As regards the ninth reason, the majority were of opinion that it would be just as well for the College if it were not stationed at district headquarters.

As regards the tenth and eleventh reasons it was held that good water also be available at Maijdi, and that the Maijdi site was not unpleasant.

RESOLUTION ON THE SCHEME FOR ELEMENTARY AGRICULTURAL EDUCATION IN BENGAL.

GOVERNMENT OF BENGAL.

AGRICULTURE AND INDUSTRIES DEPARTMENT.

Agriculture.

CALCUTTA, THE 17TH FEBRUARY 1922.

RESOLUTION—No. 798Agri.

Minister in charge: The Hon'ble Nawab Saiyid Nawab Ali Chaudhuri, Khan Bahadur, C.I.E.

FOR some time past the question of agricultural education has been engaging the attention of the Government of Bengal in the Ministry of Agriculture and Public Works. The great increase in the cost of living and the consequent necessity for increasing the output of the soil, the growing demand for vocational education, and the need of new fields of employment for the middle classes have all combined to impress Government with the desirability of framing a comprehensive policy of agricultural education to which effect can be given as the finances of the province permit. The object of this resolution is to explain the views which Government have formed and to invite public opinion thereon.

2. Agricultural institutions fall into three grades—(1) higher, (2) secondary and (3) elementary according to the class of instruction which they impart. In addition to the institutions of these three grades it may eventually be necessary to open special schools at which such subjects as dairy and poultry farming and horticulture will be taught.

3. It has been decided that the highest type of agricultural education will be imparted at the proposed Institute at Dacca Land has already been acquired for the purpose and the plans and estimates have been sanctioned. The Institute will be equipped with all the modern appliances necessary for the highest agricultural training. Only graduates in science or agriculture will be admitted to the courses, and these will be of the most specialized type, including agricultural botany, agricultural engineering, dairying and other subjects. It may, however, also be found necessary to provide a complete course of undergraduate studies up to the standard taught at other provincial colleges.

4. An attempt to meet the needs of less advanced students was made in 1920, when as an experimental measure two agricultural vernacular schools were started, one at Dacca and the other at Chinsura. The object of these institutions was to train the sons of cultivators in the elements of improved agriculture and allied subjects such as smithy and carpentry while at the same time allowing them to pursue their vernacular education in literature and mathematics. It was hoped that on the completion of their training these youths would return to their home and apply their knowledge in the cultivation of their holdings. Experience proved, however, that these two schools were in many respects not suitable for the purpose for which they were intended, the main objection being that they were far too costly. The position has therefore been reviewed by the Government of Bengal in the Ministry of Agriculture and Public Works and these schools have been raised to the secondary standard from the beginning of this session. The students will receive a good theoretical and practical training in agriculture, including rural economics and organisation in agricultural engineering, including carpentry, smithy, surveying, working and repair of agricultural implements, etc., and in horticulture, dairying, poultry-keeping, veterinary hygiene, book-keeping and zemindari accounts. The primary object of these schools will be to train a class of men who will be fitted to undertake practical farming or to accept employment under Government or private zemindars

as agricultural demonstrators or as teachers in elementary agricultural schools. The majority of the students will be selected from the agricultural classes, and it is hoped that a large number of them will return to their holdings and devote themselves to intensive farming on modern lines.

5. It is apparent, however, that to satisfy the needs of the mass of the people, the cultivating classes will have to be approached through a much simpler and less expensive system of education. At the last meeting of the Bengal Board of the Agricultural Department the subject was discussed at length, and it was agreed that though the Department of Agriculture, by its researches, demonstrations and propaganda work has done a great deal to educate the cultivator, there is need for the establishment of a net work of elementary agricultural schools of an inexpensive type, where the sons of the cultivators will receive a systematic training in the elementary principles of agriculture. In response to this decision of the Board the Government of Bengal in the Ministry of Agriculture and Public Works put Dr. N. Gupta of the Department of Agriculture on special duty to work out proposals for the establishment of such schools, and the Director of Agriculture, in consultation with him, has submitted a scheme to Government which is described below.

6. These schools will be located within easy reach of the cultivator and will each serve a limited area. They will be of the most inexpensive type. The course will extend over two years and the training will be of a practical character, but in order to keep up the knowledge acquired by the students in the primary schools, some instruction in reading and writing will also be given. The reading will, however, be confined to a vernacular agricultural primer to be written by a departmental officer. The course will consist of agriculture, including cattle management and hygiene, elements of mensuration and surveying, and elementary carpentry and smithy, all with special reference to the every-day needs of the cultivator. Besides these, short conversational lessons will be given to the boys, with the help of lantern slides and charts, on the elements of personal hygiene and rural sanitation, co-operative credit, agricultural improvement, etc., with the object of broadening their intelligence without unduly taxing it. The subjects will be dealt with in an elementary manner and the course arranged in such a way as to be of real help to the student in his after-career as a cultivator

Every school will have its own land where the students will be required to do all the agricultural operations themselves (in a joint plot in the first year, and in individual plots in the second). In addition they will be required to do the annual repairs of the school house and to keep the place clean. No habits of luxury will be encouraged and there will be no furniture except mats for the boys to sit on. The headmaster of the school will also be the agricultural demonstrator for the locality and each school will in reality be a demonstration centre where the local people can get visual evidence of the value of agricultural improvements. Each school may also serve as centre for lectures for the surrounding villages.

The entrance qualification of the pupils will be the lower primary standard and the minimum age 13 or 14 years for boys with a strong physique. It is expected, however, that these schools will be taken advantage of by much older boys of the cultivating classes. The authors of the scheme consider that a course of agricultural education even of the most elementary character, if it is to have a permanent effect, should extend over two years. But it is realised that the Bengali cultivator may often be unwilling to spare his son for so long a period, and to meet the difficulty it is proposed to make the first-year course as complete as possible in itself to enable such boys to profit from one year's attendance. It will be a course suited to cultivator's sons who wish to work their own small holdings on improved methods without going in for any great expenditure. It will embrace a comprehensive grounding in the elements of agriculture. The second-year training will be a continuation of the first-year on higher standard with the addition of a few practical courses on special subjects like *gur*-making, tobacco-curing, poultry-farming, vegetable-cultivating, butter-making, cigar-rolling, etc., according

to the facilities which the locality affords for such training. The curriculum will be adjusted to suit the requirement of more advanced cultivators who can afford to go in for intensive crops and the use of simple improved implements and better manuring.

The buildings of the school will consist of a school room, teacher's quarters, and workshop, a cattle shed and fodder godown and a house for menials. The equipment of the workshop will be complete but inexpensive, and the building will be constructed of local materials in the cheapest manner possible. The minimum capital expense of such a school consistent with efficiency has been estimated at about Rs. 3,000, excluding the cost of the land, and the annual recurring charges at about Rs. 1,800 per school. It is hoped that the capital expenditure on these schools will be considerably diminished by contributions from local bodies and private persons in the shape of money or of land and buildings. It is gratifying to note that the Government have already received such offers from private individuals and have reason to believe that more will be forthcoming.

7. The Government of Bengal in the Ministry of Agriculture and Public Works fully realise that the question of elementary agricultural education is not free from difficulties, and they are desirous of obtaining the views of the public on the subject. They, therefore, invite expressions of opinion on these proposals for the establishment of elementary agricultural schools and particularly as to (*a*) the desirability of opening the elementary agricultural schools as detailed above, (*b*) their prospects of success, (*c*) the suitability of the curriculum (appended), (*d*) the length of the course, (*e*) the prospects of actual cultivators' sons attending such schools, (*f*) the capacity of the boys to assimilate the teaching, and (*g*) the most suitable age and educational qualifications for admission.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1920-21.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 14TH FEBRUARY 1922.

RESOLUTION—No. 2-*I*.

READ—

The Annual Irrigation Revenue Report for the year 1920-21.

The Major Irrigation Works in Bengal are, the Midnapore and the Hijli Tidal Canals and the Grand Trunk Canal project. The first two canals are in operation. In connection with the Grand Trunk Canal project, preliminary arrangements were made during the year. **The Minor Works** for navigation are the Calcutta and Eastern Canals, the Madaripur Bil Route, a portion of the Orissa Coast Canal, the Nadia Rivers and the Gaighatta and Buxi Khal. The only irrigation work of this class is the Eden Canal. Training works on the rivers Ganges, Bhagirathi, Dhaleswari and Buriganga and the Anti-malarial drainage works carried out by this department at the cost of Government are classed under this head.

2. The capital outlay on the major works to the end of March 1921 amounted to Rs. 1,29,06,869. A sum of Rs. 17,86,096 was spent during the year in connection with the Grand Trunk Canal project. This expenditure represents the cost of the acquisition of land and the payment made in England on account of the dredger *Ronaldshay* which has been specially ordered in connection with the Grand Trunk Canal project. Other works constructed for the capital outlay comprise two weirs across the Cossye river at Midnapore and at Panchkura and 98·75 miles of main and branch canal of which 69·75 miles provide for both irrigation and navigation and 29 miles for navigation only ; there are in addition 254·5 miles of distributaries. The Terapakia Pass Khal, Palaboni Khal and the khal leading to the Gewankhali lock entrance, of which the aggregate length is 20·75, miles are also maintained for navigation and included as part of the Hijli Tidal Canal. During the year under review no addition was made to the length of the canals and distributaries.

In accordance with the Government of India, Public Works Department, circular No. 3P.W., dated the 24th September 1921, the classification of irrigation, navigation, embankment and drainage works has undergone complete changes. The accounts for 1920-21 were, however, prepared in the old classification, and this has been adopted in this resolution and the report on which the resolution is based.

3. The total receipts from the major works amounted to Rs. 2,99,760 and the working expenses to Rs. 2,69,291, the result being a net revenue of Rs. 30,469 against Rs. 98,762 in the preceding year. This decrease in revenue is chiefly due to the increased working expenses of the Midnapore Canal and to the decreased receipts owing to the floods of July and August 1920 and to the depression in trade during the latter part of the year. The general revenues of these canals depend considerably upon receipts from navigation and these have suffered of late years from railway competition.

4. The area irrigated during the year was 91,066 acres as compared with 89,692 acres in 1919-20 and an average of 85,742 acres for the triennium ending March 1920.

5. **The Grand Trunk Canal** has been classed as a major work and sanctioned by the Secretary of State at an estimated cost of Rs. 3,09,00,000. The total capital outlay on the project during and up to the end of the year 1920-21 amounted to Rs. 17,86,096. All works in connection with this project except those for which Government have committed themselves, have for the present been held in abeyance pending further examination on the productive aspect of the project.

6. The capital outlay on canals classed as minor works and navigation was Rs: 3,28,797 during the year and Rs. 1,51,99,501 to the end of the year. The receipts for the year amounted to Rs. 7,69,310 and the working expenses to Rs. 10,53,255.

The financial results of the year and the capital expenditure to date are exhibited in the following statement :—

7. **The Calcutta and Eastern Canals** form a series of navigable channels mostly natural but partly artificial by which communication is maintained between Calcutta and Eastern Bengal. The receipts from navigation tolls amounted to Rs. 3,65.011 as compared with Rs. 3,80,101 in the preceding year. The decrease is due to less transport of jute during the year. The capital outlay incurred during the year was expended on the excavation of a channel between the Kankrabunia khal and Channel Creek to the south of the Doagra channel in the Sunderbans Steamer Route and on the purchase of coaling plant for the dredgers *Foyers* and *Alexandra*. The channel referred to will serve as an alternative to the Doagra channel which is rapidly dying.

8. The capital expenditure during the year on **the Madaripur Bil Route** which connects the Madhumati and Kumar rivers in the district of Faridpur, was incurred chiefly on the work of widening and deepening the main channel of the route which was in progress during the year. The receipts from navigation tolls amounted to Rs. 3,14,963 as compared with Rs. 3,40,003 in the preceding year.

9. **The Orissa Coast Canal** in conjunction with the Hijli Tidal Canal affords communication between Bengal and Orissa, and, before the opening of the Bengal-Nagpur Railway was the only inland route by which supplies of food could be conveyed into Orissa in time of famine. This canal which is intended for navigation only now lies partly in this Presidency and partly in the Province of Bihar and Orissa. The receipts and working expenses (direct and indirect) for the portion within Bengal were, respectively, Rs. 13,236 and Rs. 7,691 as against Rs. 16,512 and Rs. 10,728 in the year 1919-20.

10. The work in the **Nadia Rivers** consists in the training of the river channels by bandals with the two-fold object of maintaining by the scouring of shoals a sufficient depth of water for boat traffic and at the same time improving the sanitation of the country. The Hooghly river also depends on these rivers for its head waters. The report of the committee appointed in 1917 to advise Government on the steps to be taken to carry out systematic observations of the changes in the Nadia rivers and also, if possible, to improve their conditions as navigable channels and as feeders for the Lower Hooghly is still under the consideration of Government. The only outcome so far has been the constitution of a permanent board whose

duty it will be to examine all important projects which are likely to restrict the free flow of flood water. The receipts and working expenses (direct) of the system during the year under review were Rs. 13,377 and Rs. 63,837, respectively.

11. **The Gaighatta and Buxi Khal** is a short channel connecting the rivers Damodar and Rupnarain. Nothing had to be spent during the year on the upkeep of the khal. The collection of tolls on boat traffic has been leased for three years from 15th May 1919 at a rental of Rs. 4,700 per annum.

12. **The Eden Canal** was originally constructed for sanitary reasons, but it is now used to some extent for irrigation. It was worked during the year at a loss of Rs. 13,358 against a similar loss of Rs. 11,495 in the preceding year. The financial position and the usefulness of the canal will be improved in the construction of the Damodar canal. The estimate for this project, amounting to Rs. 68 lakhs for direct charges, has been sanctioned by the Secretary of State. As funds required for the work will have to be met from loan funds, this Government is now considering whether at the present rate of interest the project can still be classified as a Productive Public Work.

13. The work in connection with the **Improvement of the Bidyadhari river** by creating a spill reservoir for the flood tide was in progress during the year. The operations already undertaken have proved satisfactory, and it is expected that the continuation and extension of the operations will effect further improvement by which the life of the river will probably be prolonged for a number of years.

14. Some of the works in connection with projects for mitigating the effects of the Damodar floods were completed and others were in progress.

15. (*i*) **Training Works** were, as usual, carried out in the Dhaleswari and Buriganga rivers to facilitate navigation and to improve the water-supply of the town of Dacca. The shoal at Post-gola on the Buriganga river was operated on by the dredger *Alpha* of the India General Navigation and Railway Company, Limited. The result of training operation in the Dhaleswari river was highly satisfactory, but that in the Buriganga was unsatisfactory owing to considerable amount of discharge escaping through.

(*ii*) Training works were carried out also during the year through the agency of the India General Navigation and Railway Company, Limited, on the river Ganges between Rajmahal and Goalundo.

(*iii*) To improve navigation as well as the sanitary conditions and water-supply of the town of Rampur Boalia, training works were carried out on the channel of the river Ganges.

(*iv*) At the mouth of the Bhagirathi river at its off-take from the river Ganges, no dredging operations were done during the year as no suitable dredger was available, but attempts were made to improve the entrance by means of bandalling only.

16. **General.**—As stated in the last year's resolution the most important problems with which the Irrigation Department in Bengal have to deal are not connected with irrigation properly so-called, but are mainly concerned with the improvement of navigation and sanitary conditions and the control of flood water. Concerning the problem of improving means of navigation Government have for several years been impressed by the urgent necessity of developing adequately these waterways systems, and they have now the sanction of the Secretary of State to the construction of the Grand Trunk Canal project. A special officer has, however, been deputed to work out the full details of the project to show its productive aspect to the Legislative Council before actual construction is taken up. The navigation projects prepared by the Executive Engineer on special duty in connection with the conservancy of the rivers Dhaleswari and Buriganga were still under the consideration of Government during the year. To improve the sanitary as well as the drainage conditions, several anti-malarial schemes were under construction, and other schemes were under investigation during the year. Flood embankments and sluices in them were also efficiently maintained during the year.

17. The Irrigation Department during the year under review was successively in charge of the late Mr. F. A. A. Cowley, Mr. C. P. Walsh and Rai Amar Nath Das Bahadur. The thanks of Government are due to these officers for the efficient conduct of the affairs of the Government during the year. By the death of Mr. F. A. A. Cowley, the Government and the Department lost an experienced and able officer whose services could not be too highly appreciated. The good work of other officers has also been noted by Government. Special thanks are also due to Mr. C. Addams-Williams, C.I.E., Superintending Engineer, on special duty, for the zeal and ability with which he conducted his enquiries into the drainage condition in Bengal.

ORDER.—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and of its accompaniments be submitted to the Government of India in the Public Works Department and circulated to other Governments and to all Departments and officers of this Government as usual.

By order of the Governor in Council,

G. T. HUNTINGFORD,
Secretary to the Government of Bengal (*offg.*).

RESOLUTION ON THE SURVEY AND SETTLEMENT REPORTS FOR THE YEAR ENDING THE 30TH SEPTEMBER 1921.

GOVERNMENT OF BENGAL.

REVENUE DEPARTMENT.

Land Revenue.

CALCUTTA, THE 17TH FEBRUARY 1922.

RESOLUTION—No. 1934L.R.

READ—

The Survey and Settlement Reports for the year ending the 30th September 1921.

During the year under review traverse survey was continued in the districts of Bogra, Murshidabad, Birbhum and Khulna, and with the exception of 3 square miles in the Khulna district, the programme consisting of 3,424 square miles was completed. Towards the close of the year, the traverse survey programme was reduced from a four-party to a two-party basis. At present traverse survey is going on in the districts of Pabna, Bogra and Khulna and has been discontinued in the districts of Murshidabad and Birbhum.

The Survey Department also carried on some miscellaneous surveys during the year. The work in connection with the demarcation of rivers in the Nadia district, which was continued from the previous season, was completed. The survey of the limits of the jurisdiction of the Calcutta High Court was also undertaken during the year.

2. The report of the Director of Land Records, Bengal, gives an interesting account of the progress of work done under his control. Except for the diara resumptions, the major settlement operations in the districts of Mymensingh, Midnapore, Tippera, Noakhali and Rajshahi were in their closing stages. By the end of the year, records-of-rights had been completed in 55 per cent. of the area in this province to which the Bengal Tenancy Act applies.

3. Major settlement operations were in full swing in the districts of Jessore, Nadia, Bankura and Pabna-Bogra. Minor operations of considerable importance were also in progress in the districts of Faridpur, Bakarganj, Dacca, Tippera and Darjeeling. During the year an area of 3,270 square miles was cadastrally surveyed; records for 2,477 square miles were attested and those for 2,084 square miles were finally published. The outturn of work compares favourably with that of the preceding year. Although in some areas where operations were going on progress was retarded on account of illness among the staff and strikes in the press, the work, excepting *bujharat* in Bankura and Pabna-Bogra districts, was kept well up to the programme.

4. Towards the close of the year, the settlement programme was reduced from a four-party to a three-party basis, and will be further reduced to a two-party basis next year. According to the original programme, settlement operations were to commence during the current field season in the districts of Birbhum, Khulna and Murshidabad. Owing to financial stringency, however, expenditure on survey and settlement operations has been reduced as much as possible, and in consequence only a limited programme has been undertaken in the district of Birbhum; the settlement in Murshidabad district has been stopped altogether for the present. It was with great regret that the Governor in Council was compelled to agree to this reduction in programme and to the consequent delay in the completion of the record-of-rights in all districts of the province. He trusts that it will now be possible

to avoid any further reduction and to carry on the settlement-operations under a settled, if not an expanding, programme.

5. As in the district of Nadia, a large number of *utbandi* tenancies were found in the Bongaon subdivision of the Jessore district. The greater number of these tenancies were however *utbandi* in name rather than in incidents, and where the tenants have been in continuous cultivation for twelve years, the holdings have been recorded on separate *khatians* and treated as full raiyati holdings. Attestation in Jessore was not so difficult as in Nadia, and a fair number of real *utbandi* tenancies were converted into ordinary raiyati holdings with the consent of the landlords who recognised the advantage of securing a fixed income. In the district of Nadia, on the other hand, the landlords were opposed to such conversion and the *utbandi* lands held by tenants have been generally recorded either as nominal or real *utbandi*. For a large proportion of the lands falling under the latter category, however, the tenants have been recorded as having occupancy rights on the ground of twelve years' continuous cultivation or payment of rent. Another peculiar feature of the *utbandi* tenancies in Nadia was the multiplication of different rates for different crops and fields, and the Settlement Department has specified no less than forty kinds of common rate in that district. Complicated questions relating to *utbandi* tenancies have lately led to discussions in the decision of which, it is hoped, the Committee appointed to consider the amendment of the Bengal Tenancy Act will give material assistance.

6. The Governor in Council has read with pleasure the account in the report of the Director of Land Records of the increasing popularity of the settlement records and maps. They are now freely used in almost every branch of the administration. Nearly 850,000 copies of *Khatians* and 17,000 copies of maps were sold to the public during the year.

7. The work of resumption of accretions from rivers added considerably to the normal programme of the recent settlements in Eastern Bengal. Up to the end of the year under review, proceedings have been drawn up for 1,672 new estates; the proceedings for 1,452 estates with a land revenue of over Rs. 2 lakhs have been confirmed by the Board of Revenue.

8. Mr. C. A. O'Donel was in charge of the Bengal Survey Department up to the 2nd June 1921, when he went on leave, and Mr. O. E. C. Judd held charge of the Department for the rest of the year. Mr. F. A. Sachse, I.C.S., was in charge of the Department of Land Records, Bengal, throughout the year. The Governor in Council has much pleasure in acknowledging the care and ability which Mr. Sachse has devoted to the work of his Department and his ready co-operation in adjusting settlement operations to the limits imposed by financial considerations. His Excellency in Council also desires to acknowledge the services rendered by the settlement officers, Messrs. F. W. Robertson, J. M. Pringle, H. C. V. Philpot and Khan Bahadur Muhammad Abdul Momen. The good work of these officers and of those mentioned in the last two paragraphs of the survey and settlement reports will be noted.

ORDER.—Ordered that this Resolution be published in the *Calcutta Gazette* and that a copy of it, together with the copies of the two reports, be submitted to the Government of India.

By order of the Governor in Council,

W. S. HOPKYNS,
Secretary to the Government of Bengal.

DEPARTMENT OF AGRICULTURE, BENGAL.

Third and Final Report on the Winter Rice Crop of Bengal, 1921-22.

NOTE.—On an average of the five years ending 1919-20, the area under Winter Rice in Bengal has represented some 19·7 per cent. of the total area under rice in British India.

Character of the season.—In the second forecast issued in December last, the weather was reviewed up to end of October as having been good for the broadcast, and satisfactory for the transplanted, rice crops. Since then, dry weather has been favourable for harvesting.

Acreage.—According to District Officers' estimates, the total area under winter rice amounts to 15,850,200 acres as against 15,343,800 acres, in the corresponding forecast of last year. The increase in area since the issue of the second forecast is mainly due to revision of estimates in the district of Mymensingh on the basis of settlement figures.

Outturn.—From the district returns appended it will be seen that four districts report a bumper crop, viz., Tippera 133 per cent., Rangpur 125 per cent., Darjeeling and Mymensingh each 117 per cent. Midnapore reports a crop just above the normal (*i.e.*, 108 per cent.). The districts of Howrah, Dinajpur, Jalpaiguri, Faridpur, Bakarganj, Chittagong and Noakhali report a normal crop ; seven districts a crop between 83 and 95 per cent. The remaining eight districts report the outturn as follows :—

Malda 79 per cent. ; Murshidabad, Burdwan and the Chittagong Hill Tracts each 75 per cent. ; Nadia, Birbhum. Bankura and Hooghly report a crop as low as between 58 to 67 per cent.

As compared with the second forecast, a better crop has been harvested in the districts of the 24-Parganas, Midnapore, Jalpaiguri, Bogra, Mymensingh and Tippera but in the districts of Murshidabad, Khulna, Hooghly and Dacca the outturns have fallen somewhat below the previous estimates. In the remaining districts, there has been no change since the second forecast.

According to District Officers' estimates, the provincial outturn works out to 96 per cent. of the normal as against 90 per cent. last year. But in consideration of the favourable weather conditions prevailing during the harvesting period, I am inclined to think that a normal or a 100 per cent. crop has been reaped this year.

Accepting 100 per cent as the provincial outturn, the gross yield of cleaned grain from the winter rice crop, on the basis of a normal yield of 12½ maunds per acre, amounts to 7,278,200 tons this year as against 6,341,100 tons, in the corresponding forecast of last year.

Director of Agriculture, Bengal.

Rangpur ...	623,300	581,400	617,900	81·4	125	End of November. Normal.	The weather was favourable. In the char lands of Kurigram subdivision the seedlings were damaged to a certain extent by floods. In some places the outturn is said likely to be 16 or 18 annas; in others 12 or 14 annas. The outturn is therefore estimated at 125 per cent., i.e., 15-anna crop for the district.
Bogra	302,000	448,000	448,000	80	85	End of November. Normal.	The weather was favourable till the middle of October and the normal outturn could have been obtained but for want of rain since then.

Malda	236,200	243,400	242,700	58	79	By the end of November. Normal.	The unfavourable weather consequent on the want of timely rain, from the sowing time till the middle of August, retarded the growth of the crop. since then, the conditions were favourable for some time, but drought since October caused some damage. The fall in outturn is due to sudden flood and want of timely rain.
Dacca ...	647,900	663,300	703,900	110	90	Middle of November.	The weather was fairly favourable. The outturn is below the normal owing to damage caused by sudden flood in July in the Manikganj subdivision.

Damage by sudden rise of water may be roughly estimated to be about 12 per cent. each in the Tangail and Netrakona subdivisions and 25 per cent in Kishorganj. As conditions were generally favourable, the outturn is estimated to be above the normal this year.
Faridpur ...	770,100	745,200	761,400	100	100	November. Normal ...	The weather was generally favourable, and a normal outturn has been obtained in spite of some damage caused by drought and sudden rise of water.
Bakarganj ...	1,300,000	1,346,100	1,312,000	100	100	November and December. Normal.	The decrease in area is due to flood at the end of July which damaged about 9 annas of the seedlings. The weather was generally favourable. The outturn seemed to be fair on the whole, but as there is a large percentage of undeveloped paddy (chaff), it is estimated to be normal.
Chittagong ...	418,400	421,300	421,800	100	100	November and December.	The weather was generally favourable and a normal outturn has been obtained though some damage was done by flood in September and October in low lying areas.

MEDICAL DEPARTMENT.

Medical.

CALCUTTA, THE 21ST FEBRUARY 1922.

RESOLUTION—No. 433Medl.

BY the death of Major-General William Henry Bonner Robinson, C.B., K.H.S., I.M.S., the State has lost the services of a distinguished public servant and the Governor and his Minister (Medical Department) desire to place on record an expression of their regret at this grave loss and their sympathy with his widow and children. Major-General Robinson was born at Kingstown, Dublin, in December, 1863, and entered the Indian Medical Service in 1886. In his earlier years, he saw active service in Upper Burma, in the Chin Hills, at Chitral and in Wazirstan. He served the 34th Pioneers in the Tirah Expeditionary Force as their Medical Officer.

Under the Foreign Department he served as Residency Surgeon of Alwar, Bikaner, Jaipur and Marwar and subsequently as Chief Medical Officer in Rajputana. In 1914 he went with the Indian Expeditionary Force to Egypt as Deputy Director of the Indian Medical Service where his services were rewarded by the conferment of the Companionship of the Order of the Bath. On return to civil duty, Major-General Robinson held the post of Inspector-General of Civil Hospitals in the Central Provinces and on the 12th March 1918 he was appointed Surgeon-General to the Government of Bengal. In 1921 he officiated as Director-General of the Indian Medical Service.

Throughout his service Major-General Robinson enjoyed the esteem and confidence of those under whom he worked while his qualities won him the loyal co-operation of his subordinates. He was an able administrator, sound in judgment and endowed with a quick grasp of essentials and a strong sense of what was practical. In private life his attractive personality won for him many friends.

The Governor and his Minister (Medical Department) desire to record their high appreciation of General Robinson's valuable services to the State and to the cause of Medical Education in India.

2. *Clause 1.*—Extent and commencement clauses have been added by the Select Committee and a slight amendment made in the short title.

Clause 4.—The Committee by a majority are of opinion that the raising of the minimum limit proposed in clause 4 of the Bill in the case of probate fees is sound.

Clause 5.—The Committee have considered the desire of the Council that the fees of small value suits should not be increased. They have also considered the loss of revenue that would result by the adoption of various limits suggested, and they are unanimously of opinion that the limit of Rs. 50 should be the limit up to which no increase in the present rates should be made. They are also of opinion that the increase on suits valued at Rs. 50 to Rs. 100 should be only annas two instead of annas three as proposed in the Bill. They consider that this favourable scale should not apply to suits valued at more than Rs. 100, and that the flat rate of Re. 1-2 for every Rs. 10 should be applied to such suits for the entire value of the suit including the first hundred rupees.

The Committee further consider that, in view of the heavy loss of revenue that must arise from the concession granted in regard to low value suits, there should be some increase in the fees, charged on suits of a value of rupees one thousand and over, above the rates contained in the Bill. They suggest the following scale :—

	Rs.	A.
From Rs. 1,000 to Rs. 7,500, for every Rs. 100 or part thereof in excess of Rs. 1,000	7	8
From Rs. 7,500 to Rs. 10,000, for every Rs. 250 or part thereof in excess of Rs. 7,500	15	0
From Rs. 10,000 to Rs. 20,000, for every Rs. 500 or part thereof in excess of Rs. 10,000	22	8
From Rs. 20,000, to Rs. 50,000 for every Rs. 1,000 or part thereof in excess of Rs. 20,000	30	0
Over Rs. 50,000, for every Rs. 5,000 or part thereof in excess of Rs. 50,000	37	8

with a maximum fee of Rs. 10,000.

As the adoption of this scale results in extensive textual amendments, a new Article 1 is substituted for the existing Article in the Act.

Clause 6.—The Committee consider that the fees for copies of judgments passed by the High Court should be raised from Re. 1 to Re. 1-8 on the same principle as has been adopted throughout the Bill. The necessary amendment has been made in the clause.

Clause 7.—The Committee, after considering the various opinions in regard to fees on applications for probate, favour the principle embodied in the proposals of the Incorporated Law Society in regard to the scale of such fees, but have slightly modified the scale as set forward in the opinion of that Society. The scale suggested by the Committee is—

Rs. 2,000 to Rs. 10,000	2 per cent.
Rs. 10,000 to Rs. 50,000	3 „ „
Rs. 50,000 to Rs. 1,00,000	4 „ „
Rs. 1,00,000 or over	5 „ „

In accordance with the opinion expressed by the Incorporated Law Society they suggest the adoption of a graduated scale.

Clause 8.—The Committee have adopted the same principle in regard to succession certificates as in regard to applications for probate and the same rates, except that in regard to succession certificates they do not think that it is necessary to raise the minimum existing limit to Rs. 2,000, as is suggested in the Bill in regard to probate fees. Succession certificates are often taken out on a small portion of an estate, the rest of the estate furnishing no duty whatever, and they therefore do not consider that any special concession should be made in the case of those documents.

The Committee also suggest the adoption of the 50 per cent. increase on the above rates in the case of amounts to which succession certificates have been extended under section 10 of the Succession Certificate Act.

Clause 9.—The table of rates has been revised so as to conform to the rates proposed in clause 5.

Clause 10.—The words 'member of a District Board' have been inserted after the words 'Municipal Commissioner' in the third entry in the second column of Article 1, Schedule II. The Court-fees Act was passed before the creation of District Boards, and there is no reason why District Boards should not be on the same footing as Municipalities in this matter. A slight drafting amendment has also been made in this clause.

New clause 12A.—This clause has been added to the Bill so as to raise the rates (except in respect of certain revenue appeals) of the fees payable on appeals from an order which has not the effect of a decree. The Committee consider that these appeals are very often filed on insufficient grounds and that they take up a considerable amount of the time of the Courts, and that there should be a suitable fee on such appeals.

Clause 15.—The Committee have suggested the application of the Rs. 50 limit, adopted by them in regard to plaints, as the limit in Small Cause Court suits, up to which no increase in the present rates should be made. On suits above that amount they consider that the fees already proposed in the Bill are reasonable. The necessary changes in this clause have been made.

3. We have not incorporated any of the changes of procedure suggested in the various opinions, as we do not consider that these can be dealt with suitably in a measure for raising revenue.

4. The Bill was published in English in the *Calcutta Gazette* of the 14th December, 1921.

5. We do not consider that the Bill has been so altered as to require republication.

6. We recommend that the Bill as amended by us be passed.

Note of Dissent by Babu Surendra Nath Roy, M. L. C.

I think the new Court Fees Bill when enacted should remain in force for three years only. It is no doubt our bounden duty to see that there is no deadlock in the administration of the country and this will inevitably follow if some additional taxes are not imposed. But I would not, for the present, make any taxes permanent. It is said by the Hon'ble Mr. Kerr that "a further reason for asking for a moderate surplus is that we shall then be enabled to inaugurate a sound loan policy, to pay for large non-recurring schemes out of the proceeds of a loan and thereby relieve our revenue budget and enable us to undertake a larger number of useful and beneficial recurring schemes". So Government want every year a surplus from the revenue to pay for interest and sinking fund. That is the reason to make the taxes permanent. My reasons for not making the taxes permanent are as follows :—

The Government of India have consented to remit Bengal's contribution of 63 lakhs of rupees a year for three years only. If after the expiry of the three years they see that Bengal has been able to tide over its financial difficulties by the imposition of additional taxes it goes without saying that even this remission of 63 lakhs of rupees by the Central Government will be put a stop to and Bengal will be forced to pay its contribution. It is expected that the question of financial readjustment of the different provinces will be taken up by the Joint Parliamentary Committee within a short time. When the latter come to know that Bengal has been able to solve its financial difficulties by the imposition of additional taxation it is only fair to surmise that the Committee will not consider the case of Bengal with such a feeling of commiseration as they would do otherwise if they come to realise that such taxation is only precarious and has been imposed only for a limited period to tide over present difficulties. The Joint Parliamentary Committee may solve the difficult financial situation in Bengal in such a way that additional taxation may not be necessary at all. Why not then make the new taxation as a temporary expedient to meet temporary difficulties.

My second reason to make the Bill to remain in force for three years is that we must watch and see if there is a reduction of revenue on account of the increased taxation on Court-fees. The Hon'ble Mr. Kerr anticipates this and says—"It is possible that some diminution of revenue will follow the imposition of increased duties". It is safer to wait and see what the diminution in income will be and then to act according to the then state of things and not to float a loan now depending upon the present income.

My third ground for making the Bill operate for three years only is as follows :—

It must be admitted that this fresh taxation will not be a popular one. If, however, the people come to know that a good portion of this amount is being spent on "transferred subjects" the additional taxation will be less unpopular. Government by spending the income thus derived for three years can prepare the way to make the additional duty, if necessary, permanent. But not now.

These are some of my reasons to make the new Court-fees Bill temporary for three years for the present.

Note of dissent by Kumar Shib Shekhareswar Ray, M.L.C.

I sign the report of the Select Committee subject to the following note of dissent :—

I had opposed the principle of this Bill and I still hold to my opinion. The country is in such an impoverished condition that any the least additional burden thrown on the people will tell on them very heavily. However, as the Council has thought otherwise and considers that measures must be introduced to have more funds to tide over the present financial crisis, I must submit to its decision. But the crisis being only temporary, and possibility of retrenchments and of revision of the Meston Award still remaining, I recommend that the Council would pass it as a temporary measure only to carry us through the present crisis.

Note of dissent by Sir Asutosh Chaudhuri, M.L.C., Khan Bahadur Maulvi Emaduddin Ahmed, M.L.C., and Babu Kishori Mohan Chaudhuri, M.L.C.

I agree that the Bill should remain in force for 3 years for the present.

2. *Clause 1.*—A commencement clause has been added.

Clause 5 and new clause 5A.—Drafting amendments in clause 5 have been suggested, and sections 4 and 6 have been treated separately, as the Committee consider that the minimum rate for counterparts and duplicates should also be raised to one rupee eight annas, to bring the duty on such instruments into line with the provisions in the Schedule.

New clause 5B.—The Committee agreeing with the Incorporated Law Society consider that it is necessary to provide against the execution, outside Bengal, in order to avoid the higher rate of duty, of documents relating to property or to things done in Bengal and the subsequent use in Bengal of copies, counterparts, duplicates, etc., of those documents on the payment of the small fixed fee provided under those sections and under the Court-fees Act and Schedule IA for copies. The Committee consider that if the original document would have been chargeable in Bengal with the higher rate of duty provided in the Bill, the production of a counterpart, duplicate or copy in its place should not excuse the holder from payment of the Bengal duty. A consequential amendment to section 77 has been made by new clause 8B, as Stamp duty under this Act will, on the same principle, be substituted for the Court-fee paid on certain kinds of copies which might be produced instead of the originals in order to avoid the higher duty.

Clause 6 has been amplified in order to provide for cases where other Provinces pass their stamp law instead of amending the principal Act.

Clause 7 has been recast with a view to simplification. The Committee consider that it will be convenient to the public that the articles in Schedule IA be renumbered so as to correspond with similar articles in Schedule I, and that section 29A be based on this correspondence.

Clause 6 (iii) becomes *Clause 8* and has also been recast in order to avoid an ambiguity in the draft.

New clause 8A has been inserted so as to avoid certificates given for the lower rate of duty in respect of instruments which become chargeable with a higher rate of duty under the Bill.

Schedule IA.

Article 12.—The Committee consider that the rate on awards up to Rs. 1,000 should be reduced to the same rate as on a bond, in the interests of the poorer classes.

Bond No. 15.—The Committee, by a majority, rejected a proposal that there should be no increase in the present duty on bonds up to Rs. 500, and approved the scale proposed in the Bill. The majority of the Committee consider that this proposal for reduction of the duty would entail too great a loss of revenue.

Article 23.—Conveyance: The proposals of one member that there be no increase in the duty on conveyances—

(*a*) generally and

(*b*) in Calcutta

found no support with the Committee. His further proposal that the increase be only at the rate of 25 per cent. was rejected by a majority, and the proposals contained in the Bill were approved.

Articles 24 and 25.—Consequential amendments are made in these articles in view of the proposals contained in the suggested new clause 6A.

Further Charge No. 32.—The Committee considered that the rate on further charges, where possession is not given, should be reduced to the rate provided for a bond, in order to protect small debtors.

Lease No. 35.—The Committee, by a majority, rejected a proposal to reduce the proposed rate of duty on agricultural leases in perpetuity.

Mortgage No. 40.—The Committee considered that in cases where possession is not given or agreed to be given the rate of duty on mortgages should be reduced to that proposed for bonds, in order to protect small debtors.

Notarial Act No. 42.—The Committee considered that the duty proposed should be raised to two rupees to bring this article into line with the similar Article No. 50, which is also a Notarial Act.

Partition No. 45.—The Committee considered that the duty should be reduced to that proposed for a bond so as to protect small property holders.

Power-of-Attorney No. 48.—The Committee consider that the duty on powers-of-attorney required in suits or proceedings under the Presidency Small Cause Courts Act, 1882, should be raised to one rupee so as to bring this duty into line with the rate proposed in the Court-fees Bill in the case of *vakalatnamas*, these instruments being used for similar purposes.

Security bonds and mortgage deed No. 57.—The Committee suggested the reduction of the rate of duty on security bonds and mortgage deeds where the amount secured does not exceed Rs. 1,000 to that proposed in regard to mortgages for the reasons given in regard to mortgages.

Share Warrants No. 59 and Transfers No. 62.—A proposal to reduce the rate of duty on share warrants and transfers to the level of the rate suggested for conveyances was rejected by a majority.

3. The Bill was published in English in the *Calcutta Gazette* of the 1st February, 1922.

4. We do not consider that the Bill has been so altered as to require republication.

5. We recommend that the Bill, as amended by us, be passed by the Council.

Note of Dissent by Babu Surendra Nath Mallik, M.L.C., Babu Indu Bhusan Dutta, M.L.C., Rai Upendra Lal Ray Bahadur, M.L.C., and Babu Tarit Bhusan Ray, M.L.C.

We are opposed to the imposition of fresh taxation for meeting the ordinary cost of administration. But as the Legislative Council has referred the Bill to a Select Committee for report, we think that the Bill should be so framed as not to affect the poorer section of the community in any case. With this end in view, we beg to suggest the following amendments in Schedule IA.

10.	Articles of Association of a Company.	Companies with a capital of one lac of rupees and under, should be governed by Schedule I.
12(*a*).	Award	There should not be any change in the present rate, where the amount or value of the property to which the award relates, does not exceed Rs. 1,000.
15.	Bonds	There should not be any increase in the present rate, where the amount or value does not exceed Rs. 500. For bonds, where the value exceeds Rs. 500 but does not exceed Rs. 1,000, the increase should be only 25 per cent. instead of 50 per cent. as suggested in the report.
23.	Conveyance	There should not be any change in the present rate, where the amount does not exceed Rs. 500. The stamp duty on conveyances in Calcutta should not be enhanced, as an additional duty of 2 per cent. is payable under the Calcutta Improvement Act. In any event, the increase should not exceed 25 per cent. for the whole of Bengal including Calcutta.
30.	Entry of an Advocate, Attorney or Vakil of a High Court.	There should not be any increase in the present rate.
39.	Memorandum of Association.	There should not be any increase in the present rate for companies with a capital of one lac of rupees and under.
46.	Partnership ...	(*a*) Where the capital of the partnership does not exceed Rs. 500, there should be no change. (*b*) In any other case, "Fifteen rupees" instead of "Twenty rupees" may be substituted.
48.	Powers of Attorney ...	There should not be any change in (*a*), (*c*) and (*d*).
57.	Security Bond or Mortgage Bond.	The same as in the case of Bonds (see 15 above).

We beg to suggest that this Bill should, at best, be regarded as a temporary measure, and as such, should not be in operation beyond the 31st March, 1924. During these two years, economy and retrenchment should be effected in the ordinary costs of administration and attempts should be made for securing a more equitable re-adjustment of the financial relations of Bengal with the central Government by modification of the Meston Committee's award.

We are of opinion that the question of the continuance of this measure beyond the period of two years should be one for the next Council to decide. It is not desirable that the hands of the next Council should be tied.

Note of Dissent by Babu Amulya Dhan Addy, M.L.C.

I beg to submit the following Note of Dissent to the adoption of the Report of the Select Committee of the Bengal Legislative Council on Bengal Stamp Bill.

(1) **Item 15—Bond.**—There should be no increment in the rate of Stamp duty on Bonds where the amount of value secured does not exceed Rs. 500. This is in accordance with the views expressed at the meeting of the Council when the principles of the Bill were under discussion. The object is to give relief from additional taxation to the poor who are under the painful necessity of taking loans on the execution of Bonds.

(2) **Item 23—Conveyances.**—The Stamp duty on conveyance in Calcutta should not be enhanced as an additional duty of 2 per cent. (Two per cent.) besides the duty payable under Schedule I of the Indian Stamp Act, is paid in Calcutta in pursuance of the provision of section 82 of the Calcutta Improvement Act.

The rest of the Province of Bengal continues to pay 1 per cent. (One per cent.) on this document where Calcutta has now to pay 3 per cent. (Three per cent.). An additional imposition in Calcutta will be felt as great hardship.

It may be said that under section 29 of the Indian Stamp Act the expense of providing the proper stamp shall be borne by the Grantee. But he takes into consideration the amount of the Stamp duty in fixing the price of the property he intends to buy. The citizens of Calcutta are already over-burdened with taxation. They paid during the year 1920-21 Rs. 28,04,695 out of Rs. 1,83,78,134 for Judicial Stamp. They also paid during the said period Rs. 57,92,820 out of Rs. 1,11,09,234 for Non-Judicial Stamp. They also pay heavy Municipal rates at 19½ per cent. (Nineteen and half per cent.) of the Municipal valuation of their lands and buildings and shall have to pay more in the near future for the extension of the water supply and the improvement of drainage in Calcutta. If the Stamp duty on conveyance in Bengal is enhanced, then Coal and other mining Companies will have deeds of conveyance executed in Behar, and Tea Companies will have their documents also executed in Assam. Thus the Revenue of the Government from the Stamp duty will decrease instead of increasing.

However if it is found to be absolutely necessary that this Stamp duty on conveyances should be increased, then the increment should by no means be more than 25 per cent. (Twenty-five per cent.) for the whole of Bengal even including Calcutta.

It may be said that the Committee of the British Indian Association has not raised any objection to the increment in the rates of Stamp duty. But they appear to have been under misapprehension, for, as it appears from the Statement of Objects and Reasons that the object of this Bill is to provide additional revenue in order to remove part of the existing deficit in the Provincial Revenues while as a matter of fact the object is not only to meet the deficit but also to have a surplus of revenue with a view to raise loans to take up big projects for improvement.

Item 35.—Leases in perpetuity.—With regard to rate of Stamp duty on agricultural leases in perpetuity, I think that it should be *one-tenth* and not *one-sixth* of the whole amount of rents payable in respect of the first fifty years of the lease with a view to encourage agriculture specially in the Sundarbans of the district of 24-Parganas, Khulna and Bakarganj in which the raiyats are not inclined to take lease except in perpetuity.

(3) **Item 59—Share Warrant.**—The increase of Stamp duty on Share Warrant is excessive. Distinction has always been observed in respect of movable and immovable properties for the purpose of imposition of duty.

I fail to understand as to why the duty on Share Warrant should be higher than that on transfer of immovable property. The highest duty on this item should not be more than that payable on conveyances. In fixing the duty, the Legislature should take into consideration the losses which the Merchants and Traders of Calcutta have now been suffering.

As it has already been proposed to increase the duty on conveyances no increase is necessary.

(4) **Item 48.—Transfer of Shares in Incorporated Companies.**—The Stamp duty on this transfer should not be increased. I admit that it is proposed to levy half of the duty payable on conveyances as at present, but as the rate of duty on conveyance has been proposed to be increased by 50 per cent. (Fifty per cent.), the rate of duty on transfer of shares should not be increased at all. Owing to the abnormal fall in the price of Hessians and other Jute-fabrics, the prices of shares of the Jute Companies have materially come down, thus causing heavy losses to the holders of shares thereof, as will appear on reference to "Capital" for the month of January 1920, 1921 and 1922, respectively. It will further appear from the said Commercial Magazine that most of the Tea Companies have not been able to declare any dividend at all. The shares of the said Companies have practically become unsaleable in the market. It will thus be a source of great hardship if under the present circumstances the rate of Stamp duties on shares and debentures of Joint Stock Companies be increased by 50 per cent. (Fifty per cent). As it is desirable that the Indian Industries should be encouraged, there should be no restriction to the transfer of shares by increasing the rate of Stamp duty by 50 per cent. (Fifty per cent.) as suggested.

I do also suggest that as in the case of the Calcutta Rent Act, the Bengal Stamp Act should be in force for two years only. In the meantime, every attempt should be made to curtail expenditure especially on Police and the pay and allowances of members of the Indian Civil Service as well as of members of the Provincial, Judicial and Executive Services. Steps should also be taken to move the Government of India to continue to exempt the Government of Bengal from the payment of the contribution of sixty-three lakhs of rupees every year.

The Government of India may also be moved with a view to increase its revenue to levy on the export of food-grains and raw produce of India.

In reprinting the Bill all changes made by us have been underlined.

2. *Clause 1.*—A formal alteration has been made in the commencement clause.

CHAPTER I.

Clause 2.—We consider that the definition of "admission" should be amplified so as to include persons who not only watch or listen to an entertainment, but who take part in it for amusement on payment—for example, at dances for which an admission fee is charged.

The definition of "payment of admission" has been amended so as to bring it into conformity with the wording of the Bill, and the definition has been amplified so as to provide against evasions of the tax by payments for seating accommodation, etc.

Clause 3.—The Committee have had before them the leading Theatre and Cinematograph proprietors of Calcutta, European and Indian. They have been furnished with very full statements of accounts by them, and have been impressed with the evidence given as to the present depressed condition of the industry. At the same time it has been ascertained that during the year 1921, when the depression was greatest, the gross takings for admission to Theatres and Cinematographs in Calcutta amounted to over Rs. 30 lakhs. The Committee therefore consider that this source of revenue should not be abandoned. They have endeavoured to meet the public and the proprietors as far as they can, having regard to the fact that any further decrease would make the tax of little value as a means of raising revenue. In regard to other classes of entertainments they do not think that the same objections to the higher rates of 25 per cent. apply, but they consider that it should be open to the proprietors representing a particular class of entertainment, to which the higher rates apply, to obtain a reduction to the lower rates if they can satisfy the Local Government that the higher rate of tax is pressing severely on the industry.

In regard to bodies, such as the Turf Club, which exercise extensive control over the persons admitted to the races, they consider that, so long as the gross amount of the tax at a rate of 25 per cent. on all payments for admission (excluding tax) is realized, matters of detail may best be left to the proprietor. A consolidated payment of 20 per cent. of the gross receipts, equivalent to a tax at a rate of 25 per cent. on the payments for admission, excluding the tax, is therefore recommended in such cases.

Two members of the Committee desired that in deference to the representations of the proprietors of Theatres and Cinematographs regarding the present state of the industry the tax should not come into force in respect of such entertainments until October. The remainder of the Committee considered that this would involve too heavy a loss of revenue.

The limit of exemption suggested by the Committee is the exemption of payments of less than eight annas. One member wished to raise the limit to one rupee, but the rest of the Committee do not consider this to be justifiable.

Clause 5.—The Committee have considered carefully the representations for removing the liability to prosecution under this clause imposed on the person admitted in cases where the tax has not been paid. They recognize that conditions in India differ from those in England, and that members of Indian audiences are in many cases ignorant people, on whom the provision might work with undue severity. They have therefore suggested that the proprietor, as defined in the Bill, shall be the only person against whom the State should proceed under this clause, and they have suggested that it be amended accordingly. They also consider that owing to the inefficiency of the staff employed in connection with many entertainments in India the fixed fine of Rs. 500 in the case of the proprietor may operate more severely than is desirable, and they have therefore suggested that a discretion in this matter be left to the Courts.

New clause 5A.—The provisions of clauses 4 and 5 are not applied to cases where Government has arranged for a consolidated payment to be made on the gross receipts.

Clause 6.—The Committee have amplified this clause so as to cover consolidated payments, such as payments for dinners combined with dances.

Clause 7.—It is suggested that the limit under sub-clause (*c*) be raised to eight annas, the lowest taxable payment under this chapter.

Clause 8.—The Committee suggest the modification of clause 8 so as to enable a promoter of a charity entertainment to obtain a refund, if the whole proceeds of the entertainment less 20 per cent. for the expenses thereof are devoted to charity, even though the expenses have exceeded 20 per cent. of the amount of the proceeds.

Clause 11.—Amendments consequential on the above recommendations have been made in the rule-making clause.

CHAPTER II.

Clause 13.—The definition of "backer" has been amended, as betting with a licensed bookmaker and by means of a totalisator are the only forms of betting to which the Bill applies.

Clause 17.—An amendment is suggested to enable credit accounts to be adjusted in the most convenient manner in the light of experience.

The Committee considered the representations received that the tax on betting should be raised, and that it should be applied to bookmakers' winnings. They are, however, of opinion that it is dangerous to go beyond the expert advice which they have received, which is to the effect that the imposition of such a tax on bookmakers, or the raising of the betting tax, would result in an actual diminution of the revenue derived from this Chapter owing to the stopping of betting with licensed bookmakers and its transfer to unlicensed bookmakers, both in order to avoid the tax and because the licensed bookmakers, when taxed, could not offer such favourable odds.

They consider that it is necessary to watch results before taking measures which may well have an effect contrary to that intended, and therefore recommend that the tax on the totalisator and on betting be left in its present form till experience is gained.

They further consider that, to safeguard the revenue to be derived from the entertainments tax, betting with unlicensed bookmakers on the course should be prohibited by law, and they have therefore suggested the insertion of a new clause 22 to affect this.

One member desired that the operation of the Bill be limited to one year. The remainder of the Committee recognised that this would not meet the financial necessities of the Government.

3. The Bill was published in English in the *Calcutta Gazette* of the 18th January, 1922.

4. We do not consider that the Bill has been so altered as to require republication.

5. We recommend that the Bill, as amended by us, be passed.

CALCUTTA ;
The 20th February, 1922.

* This member signed subject to his Note of Dissent appended.

NOTE OF DISSENT BY Mr. S. M. BOSE, M.L.C.

I regret I am unable to agree with the majority of the members of the Select Committee as regards their views as expressed in paragraph 2 of the report on clause 17.

I think that, having regard to the following brief considerations, clause 17 of the Bill should be altered so as to make the total amount paid by backers to bookmakers liable to the tax. The clause, as it now stands, puts a tax only on the winnings of a backer, and not on total sum paid, or agreed to be paid, to the bookmaker at the time of the bet.

(1) Both the forms of betting with the tote or with the bookmaker should be treated on the same footing. Under this Bill, from every bet made with the tote, the tax is to be deducted. The principle underlying this is that persons making such bets are to pay because they choose this particular form of amusement, *i.e.*, betting. Similarly, if, instead of going to the tote, a man bets with the bookmaker, the tax should be deducted from the amount betted, because the tax is on his *amusement*, and not on his *winning*. So it is necessary that clause 17 should be changed so as to make the tax payable on the amount of the bet, irrespective of whether the bet is made with the tote or with the bookmaker.

(2) Entertainments, which afford necessary relaxation, after strenuous work, should not be overburdened with taxation, as this may injuriously affect the public. Betting, on the other hand, is usually resorted to by people of means and affords them temporary excitement for which they are prepared to pay. They are willing to take the risk of losing their money, so long as this form of amusement gives them sufficient excitement. Different considerations should therefore be applied to the two cases.

(3) From the evidence adduced it is apparent that very little can be expected in the way of revenue from the entertainments tax. The Theatres and Cinemas have all, it appears, been badly affected by the slump in trade and commerce, and it is doubtful whether we can get more than 7 lacs from this source.

(4) In my opinion the bookmakers will not be in any way injured by this proposed change in clause 17, as their income is sure to be increased by the suppression of all unlicensed betting in the enclosure. This is proposed to be effected by an amendment of the Bengal Public Gambling (Amendment) Act, 1913.

(5) Further, the betting tax, which I propose, will be paid on the amount betted, irrespective of a winning or a losing result. This will be done by a deduction of the tax from the amount of the bet.

(6) Such a tax, as proposed, is not likely to deter a man from betting with the bookmaker. We know from the evidence that at least 6 to 7 crores are paid in yearly to the bookmakers as compared to 2½ crores paid to the tote. It is conceded that betting with the bookmaker is greatly more exciting than betting with the tote, and such excitement is not likely to be damped by the imposition of a small tax, as proposed.

For the above, among other, reasons I think that clause 17(1) should be amended so as to read as follows :—

"(1) There shall be, as from the second day of April, 1922, charged, levied and paid to the Government of Bengal out of all monies paid, or agreed to be paid, to a licensed bookmaker by a backer in respect of a bet made in an enclosure set apart under the provisions of the Bengal Public Gambling (Amendment) Act, 1913, as amended by this Act, on any race a tax on backers, hereinafter referred to as the betting tax, amounting to two-and-a-half per cent. on all such monies."

And this, if accepted, will necessitate a slight change in clause 19 (*2*), which would then read as follows :—

"All licensed bookmakers shall keep accounts of all sums paid, or agreed to be paid, to them by backers in respect of bets in such manner as may be prescribed and shall, when required, etc., etc."

Note of dissent by Babu Annada Charan Dutta, M.L.C.

I agree to the report of the Select Committee, subject to the following observations :—

Clause 3.—Considering the present depressed condition of the Bengali theatres and the peculiar difficulties they have to work under, the tax on them should be lighter, and may be fixed at 12½ per cent. from the outset, and with a further provision to exempt fully or partly any such theatre from taxation on reasonable case being made out.

Clause 5.—The word "intentionally" should be inserted between "person" and "is admitted" in the first line.

There should be a further provision to realise the tax which should have been paid with certain penalty added upon report and satisfaction of a Magistrate as to such omission to realise, of a Magistrate having jurisdiction.

Clause 17 (Chapter II).

In view of the safeguard in clause 22, there will hardly be any risk of diverting betting. Tax should therefore be imposed upon the total bettings, and not upon the winnings only. This is desirable to avoid invidious distinction which will otherwise be imputed.

Note of dissent by Rai Mahendra Chandra Mitra Bahadur, M.L.C.

The Select Committee have exempted payment to eight annas from the tax suggested.

I am of opinion that the exemption should be extended up to one rupee. I also think that the tax should be levied on the book makers' total undertakings instead of the winnings only.

The operation of the Act should be limited at present for one year.

Note of Dissent by Rai Radha Charan Pal Bahadur, M. L. C.

I beg to sign this report, subject to reservations. I still subscribe to the opinion that the duration of the operation of the Bill, when passed into law, should at the first instance be limited to one year. This will enable us to observe how the Act may work in practice, and to take stock of the results achieved by this financial measure. I reiterate my suggestion that the Act should be enforced not earlier than the 1st of October, 1922, in order to allow an adequate margin of time to the owners and proprietors of the cinemas and theatres, so that they make necessary arrangements to meet the new conditions that will be created by the introduction of the tax. The representatives of the industry concerned have urged this very strongly on the Committee, and the reasons advanced appear to be very cogent. The Select Committee have exempted payment up to eight annas from the proposed tax. I am of opinion, however, that the exemption should be extended up to one rupee, and that the tax should be levied on the bookmakers' total takings instead of on the winnings only. I do not propose to go into further details at this stage.
